## Jottings

### Class of 1935

ALICE WHIPPLE sent a note. She is almost stone deaf and her eyes are failing. But she remembers Mr Parker, the principal, and Mrs Parker, who led morning devotions, teachers Miss Marley (Latin), Mr Dudley Parsons (English, Physics), Mr David (Urdu) and classmates Kittu, Irene and Zaida. She continues to love Woodstock. Her handwriting remains strong at 97 years. ELLEN COLVIN PARKER reports that she is 94, and living comfortably in the Assisted Living unit of University Village in Tampa, FL. She is legally blind, but still has many fond memories of Woodstock School. MAURICE WHITLOCK's daughter writes that he passed away in February 2008.

### Class of 1937

LARRY BURKHALTER reports an imminent move back to what he considers his American home town, Bluffton, OH, after moving away 57 years ago. The prime reason for the move is to be closer to his 6 children, all of whom, incidentally, were born in Bluffton. He met wife Holly when both were students at the old and small Bluffton College, now the very attractive Bluffton University. He will be residing in nearby Maple Crest, one of the Mennonite Home Communities. On a recent visit to Bluffton, he had the pleasure of a brief meeting with RUTH UNRAU (S), who gave him a copy of her book *Hill Station Teacher: A Life with India In It*, a delightful account of her 6 visits to India & Woodstock School over 30 years. He recommends it for all Woodstock alums.—N Laurence

### Class of 38

MARY HOPKINS-HUSSON ALLEN celebrated her 90th birthday in Oklahoma, hosted by her 4 children and their spouses. She then flew to Ohio and Florida to visit family, including a great-granddaughter namesake (2). She has finally retired from teaching piano, but continues to play at 4 nursing homes, keeps very busy gardening, doing puzzles and driving around town. She would love to hear from classmates. CHARLES WARREN (91) continues to be active in the Ebenezer Mennonite Church in Bluffton, OH, as Pastor Emeritus. All 5 Warren children are WS graduates, granddaughter AMY SEEFELDT '93 (daughter of DALE '64 & RUTH '67) is currently a faculty member. Always interested to read of WS happenings and read news clips of former students!

### Class of 1939

MARGARET CLARE REEVES muses in her note, "Did we ever imagine in our days at WS that we would still be alive in our 90s? Memories of WS are still among the most treasured." Margaret lost her husband of 64 years this past year; she thanks God for caring sons! JOYCE GRAHAM THOMASSON writes from a recovery center in Canada where her family placed her after she fell & broke her hip. She feels her 100% recovery is a real miracle. She continues her volunteer work in the community, known as Grandma Joy to the Team Challenge boys. She can rightfully boast about her 9 grandchildren, one graduating from high school & the other 8 with advanced degrees. One is a nuclear engineer, working for a few years in Silicon Valley, CA. And to top it all off, she has an 18-month-old great-grand-

daughter & a 6-month-old great-grandson. She claims she can still cook a good curry & her Hindi is perfect. JOHN MANRY boasts another 90th birthday. The effects of a broken hip, cracked pelvis & age have hampered his mobility, but he keeps busy. He uses a Kindle to read many books & takes a course via DVD discs from the Teaching Company. "Isn't the electronic age wonderful?" NORMAN MOODY manages at 89 to keep exercising daily.

His wife of 62 years died last year after they moved to Arkansas to build & live with family. However, his big life project was creating a 5-acre tropical jungle full of familiar tropical fruits & 500 species of palms in Florida. One of his sons lives there & takes care of the place. LORITA SHULL FISHER is adapting to widowhood, but keeping up with many of her volunteer community boards & activities. Three of her main interests are the United Nations Association, Friends of the Library & a feeding program for homeless men. Daughter Kathy, a hospice nurse on the Monterey Peninsula, lives downstairs in the guest apartment. With Kathy acting as facilitator, program planner and, of course, driver, they were able to take a two-week vacation in Ireland in May. Beautiful country! LAWRENCE TEMPLIN pays tribute to his 3 children: Daughter Sara helps manage the Sweet Shalom Tea House in Toledo & is married to Baldemar Velasquez, a worker in the civil rights movement, especially for migrant workers. Daughter Mary teaches at Toledo Univ & is in the process of publishing a book on panic fiction (economic panic). And son John lives at home, cares for the family & sells his paintings. The rest of the tribe includes recently born and wonderful Cheeco & Nora Kate. PHIL WHISLER is currently living alone after losing his wife, Gerry, to cancer in Jun '98. His 2 sons live in Florida (Jacksonville & Tampa); Barton in Tampa visits him every week.—*Lorita*

#### Class of 1940

It's been great keeping up with all 10 grands and 12 greats as they participate in various bike races & tours. BILL SUPPLEE keeps remembering how invigorating it was for him he was their age. Now he spectates & applauds! A reasonably content retiree, NORM WILLIAMS lives in Riderwood Village, Silver Spring, MD. with wife Wini, whom he married 68 yrs ago after working as a deckhand on a Great Lakes ship delivering coal to the blast furnaces in Gary IN. He had rejected military conscription & flunked out of Oberlin College, where they had met. He served in various government roles on environmental issues, primarily the control of strip mining for coal in WV & in Congress, nationally. They have 5 grown children, all living their own interesting lives. He is writing his memoirs (entitled *My Life with*

*Wini*) & cursing Microsoft for its absolutely abominable Windows Vista program. He also published Gandhi's American Ally: how an educational missionary joined the Mahatma's struggle against untouchability, iUniverse, 2008. DAVID MOOMAW is now mostly retired from volunteer medical practice and remains well & in touch with the 'County We Care' medical program in Jacksonville FL, with the mission to provide medical care for uninsured & underinsured patients in the area. Yesterday marked the arrival of his 2nd great grandchild, born in Winter Park FL.—*Bill*

#### Class of 1941

It saddens HELEN CONSER MAYBURY that so many of the class have passed away. She & her husband recently celebrated their 65th wedding anniversary with children & grandchildren in San Francisco. They now have 10 wonderful grandchildren. Helen recently published a book, entitled *For the Souls & Soils of India*, a memoir of her parents who were 2 courageous individuals who resolved to serve God & His people. They spent 37 years in India as well as 9 yrs in Home Missions after their retirement. In addition to their personal history, their letters tell the story of India during a time of tremendous upheaval & historical significance, meetings with great leaders, such as Jawaharlal Nehru & Mahatma Gandhi, as well as Vinoba Bhave, the author of the land-gift or sarvodaya movement. A non-violent revolutionary in the tradition of Gandhi, he collected millions of acres of land to distribute to the landless. The book can be ordered online at [xlibris.com](http://xlibris.com) or [amazon.com](http://amazon.com).—*Helen*

#### Class of 1942

RUTH GILSON NYCUM only went through 6th standard at WS, but has many memories of the time there. She has 4 children. She was a librarian at CSU Fullerton for 17 yrs. At age 85, Ruth now lives in an Assisted Living Facility, Oakmont of Chino Hills CA. She has physical problems, but her mind is clear & she does many things on her computer as secretary of the Resident Council & for the Emeriti of CSUF. STAN & BEVERLY BRUSH are deep into the Pharmaceutical Stage with her doing better than he is; driver has been added to her other duties. Stan has finished the 1st draft of his Pakistan memoir of teen years at Forman College in Lahore in the 50s & 60s. Both fondly remember a visit from BRUCE FOSTER & his daughter last yr. They recently had lunch with JANE WALLBROWN '52 & a mutual friend at Medford Leas NJ. Great time reminiscing. MARJORIE HILL has continued to be active in India right up to the present. She was hon-

ored by the Nat'l UCC meeting last spring, for significant leadership & service over her whole life in support of women & children in the mission field in Madhya Pradesh & Chattisgarh. BETTY STUNTZ ALLEN is now on the Resident Council of her Retirement Community & has attended her 2nd statewide meeting of ConCCRA (Continuing Care Residents' Assoc. of CT). Lots of good discussion & ideas for deepening & improving relationships in each community. Weekly meetings of the Singing Group, the Writing Group, a Scrabble gang, monthly meetings of the Council & 2 Missions Committees & the State Board of Church Women United - now Historian & Subscription Secretary for the CWU Newsletter - keep me hopping. I enjoy them all, but have decided not to renew my 2 CWU jobs, which run out in Dec. With son Ken & Peggy here in Cheshire & their youngest Jonny now at Yale School of Music, I have already been to 2 superb concerts in Woolsey Hall, plus many concerts in the new auditorium in our Center. No shortage of entertainment! Every once in a while I see PEGGY ALLISON, here or at their church. A couple of times I have seen their sons - who look just like Les! Smile & all. Peggy lives in a similar retirement community a few miles from here in Hamden, CT. BILL & DOROTHY VAUGH WHITCOMB live at Oakwood Village, a Lutheran retirement community in Madison WI. Bill is now having trouble getting around as his legs and hands are getting very numb, from severe neuropathy. He spends much time in our workshop making many furniture items for our church, the YMCA, our own use & for our institution and residents. I work in the library at church & here at Oakwood, in charge of archives at both places. I took the Master Gardener course some yrs ago so I am chair of our Grounds committee regarding the gardens on campus & the vegetable plots residents have in the summer. Our 4 children, all WS alumni, live nearby. It is a delight for the class to be in touch with MUSHIR HASAN RAZWI who was in our class in Standards 3-6. He now lives in Germany, remembers quite a few of the classmates & some remember him too. Communications are by email, through his daughter.—*Dorothy*

### Class of 1943

We were shocked to hear last winter that BOB ALTER had a recurrence of cancer, nothing further could be done. He & Ellen returned to WS for 2 weeks in the spring & BOB joined the angels in Jun. Our sympathy & love to ELLEN. Great remembrances of him at WS memorial service & WOSA-NA in Fort Collins. Patricia & MARTIN AHRENS

are happy to welcome son Robert, wife Sarah & Jack (2) back to Scotland after 10 yrs in US. They enjoyed a visit by sister FREDERICKA, '33. Next spring BERT BENADE is probably going to Forman's 150th anniversary celebration, his father taught physics there. He took a 5 day railroad trip with a great-great grandson of the Forman founder. BERT is working on oral history of people who live in neighborhood for Hyde Park Hist. Soc. PAUL COOLE was our only representative at WOSA reunion, the oldest class there. His blood circulation problems & wheelchair didn't keep him from attending. DES HOLLINGBERY is not traveling much because Marj is unable to go along. To keep in shape, he's covering several miles per week as well as gardening. Has been one of our most regular attendees of WOSA reunions & misses them badly. Jeanne & HUGH MUMBY have joined their bionic classmates (STEVE, MARY & TOM) with replacement hip & knee, respectively. This

made it possible for HUGH to work on a 100 ft. fir tree that hit their cabin. He is Jamadar, Khansama, Mali, Chowkidar, Chuprasi, Mis-theri etc. all rolled into one. STEVE ROOT was principal at Kodai when BOB ALTER was principal at WS & they cooperated on mutual school problems. His son taught at WS until '91 & grandson TIM '99 did gr 12 there & next yr goes to Afghanistan with his wife. MARIAN LOEHLIN DAVIES (broken hip healing), BETTY SMILEY BREMER (using walker to protect from osteoporosis, appreciating lower altitude of St. Louis vs CO ), ALYCE BANKER HEYBOER (gardening, scrabbling, reading, following beloved Tigers) & MARY STEWART CUMMINGS (watching manatee, alligator, many birds in backyard canal, daily health club exercise) are still involved in a snail mail round robin. TOM tries to keep up with MARY. Any others who would like to join the round robin contact us.—*Tom and Mary*

## Class of 1944

FRANCES BRUSH SCHILLINGER discovered that *amazon.com* has editors that will take her manuscript, put it on a disc & at no charge to her list it for sale. Her book, *Between Two Worlds, Memories of An American Growing Up in India*, is a collection of 80 stories from her early yrs. She also writes a monthly column for their retirement home news featuring their cat, Noodles. Another resident responded with his dog's view. She continues her food demonstrations. RUTH SUTHERLAND & Paul PULLIAM were in Santa Fe in May & Jun helping their daughter during & after surgery; then to Portland to help their daughter-in-law for 2 mo. after knee replacement while husband Eric was working for USAID in Afghanistan. RUTH & Paul enjoyed visits over Labor Day & again in Oct for a wedding & family reunion. MIKE & Pam JAMES were out of the flooding in Brisbane. His Type 1 diabetes has ruled their driving & other tasks which help the family, putting extra loads on Pam. BRUCE AMSTUTZ & Nan enjoy good health & travels. He arranged a 2-wk trip with friends to Scotland's Western Isles, involving a small-ship cruise from Oban & a stay on the Isle of Mull. Glacier NP & the Canadian Rockies lured them in Sep/Oct. TED WRIGHT & sister ALICE '36 met BRUCE & Nan for lunch. TED missed his planned India trip (including an 8-day luxury tour of Rajasthan) due to a light stroke which left him with mild aphasia. He was able to enjoy his ME house last summer, however. CECILY MARTIN BOOTH is managing well in spite of atrial fibrillation. She enjoys her 7 grandchildren & took a 1-wk trip with her 2 daughters up AUS's coast to Coff's Harbor. MARY LUTLEY GEE is enjoying her new flat, a visit from her American sister, her son David with wife Fiona & their 3 as well as the London reunion of her N China School. She is active in her Nailsworth church. Her son Jim, with his band Pendragon, played in Sweden; he keeps his regular job with social services. She sadly attended the funerals of a nephew & 2 sr friends. LAUREL LOADER DOWNWARD's son-in-law, after chemo, radio therapy & a stem cell transplant, is ahead of lymphoma & back at work. LAUREL has had cataracts removed successfully but is dealing with tendonitis. JOAN MERRILL MACHATA is active with family & church & has enjoyed her summer camp in the NY Adirondacks 4 times this yr. She plans 2 mo in a trailer on Chockoloski Is. FL this winter. With her brothe, ART MERRILL '46 & Margaret at a UT condo, she visited western NP's including Grand Canyon, Bryce, Zion, Hoover Dam & Snow Mt. With her sons,

she enjoyed the DC NBA playoffs. DORIS COLVIN BELL is happy that son Donald now lives with her, helping immensely with upkeep of her home in Pittsburgh. He raises orchids & is an active member of the P'gh Orchid Society. Daughter Kathryn & family moved from Seattle & now live 5 minutes away. Their youngest daughter's wedding in NYC drew the entire Bell family together for 4 days, for the 1st time ever. DORIS continues participating in her church choir, Women's Assoc, Global Links project, SS class & more. She is the one who keeps her sisters in touch. Sister RUTH '36 died in May; ELLEN '35 lives in Tampa & JOYCE '41 is in Dallas. Doris & Don drove down to see her in Oct. TOM WILSON's card is the chapel interior at MIT designed by Eero Saarinen, architect. His description: "Like a cascade of light, a full height metal sculpture by Harry Bertoia glitters from a circular skylight down onto an unadorned marble altar". TOM & Rene continue their architecture plans & UN involvement; however business is slow because of the US recession. Their Baltic cruise in June included Moscow & St Petersburg, all photographed with TOM's new camera. Both are well & the trips to the UN include visits to TOM's brother DAVID '37 in NJ. Bea BLASDELL is very grateful for their retirement center for there are activities for FRANCIS when she is busy. Both have health issues; FRANCIS, now in the nursing section, uses a walker & Bea has started a mo's radiation. Their families encourage them. ALICE ALTER WATKINS is still working on her family booklet of their life in Syria, Lebanon & India. She manages to find time between classes, book clubs & gatherings. Her brother also lives in the same condo area. She was able to visit her sister's family & Phil's family in Denver. We were able to visit DOTTY KOENIG POWERS & Erl in Atlanta, in their gorgeous garden, enjoying chai together, as we drove back from visiting TOM & MARY '43 in FL. DOTTY's health has kept her close to home. She uses a cane outdoors to deal with back pain. ERL had a scary bout with bacteremia. However, they were able to visit his daughter in PA for a week, a trip to WV to attend the wedding of Erl's oldest grandson & had a great week in Chicago enjoying the Oriental & Art Institute while visiting his son, Peter. All of Dotty's family is in Atlanta where they visit often. Their activities include their church group, the Atlanta Symphony, occasional plays, concerts & lectures at Emory U & museums. LOIS LYON NEUMANN was our class rep to the WOSA reunion in CO, staying with JANE CUMMINGS in Boulder for an extra visit. She continues on her church

vestry, helping with planning & the pastoral prayer team & additional pastoral needs. Her childhood Indian friend is now a doctor in London & visiting her included a drive to Cornwall & other beautiful English haunts. We, ELIZABETH CUMMINGS DEITZ & Jim, celebrated our 60th wedding ann'y by gathering at our son & daughter-in-law's home in Dayton OH. Most of the grandchildren were able to join our 2 older generations even though 7 of the 11 are now in college. Our MN cabin was a happy gathering place for the families. In the winter we enjoy the Cleveland orchestra, concerts by Oberlin conservatory students & faculty, book discussion groups & the outreach programs of our church.—Elizabeth

## Class of 1945

Three 45ers attended WOSA Reunion at CSU in Ft Collins: DOUG PICKETT, DICK BOLLINGER & yours truly. It was very good with interesting innovations in programming & an extensive silent auction. CSU has a lovely campus & Ft Collins is definitely an appropriate setting. What surprised me was that other than PAUL COOLE '43 & LOIS LYON NEUMANN '44, the Class of 45 attendees were at the top of the list for being the oldest alumni in attendance. We Chuts have become Hefts!! Thelma Alley Anderson's passing on Dec 11 2010 was preceded by sister-in-law Liz Templin Alley's '42 on Memorial Day. THELMA was married to Bob Anderson for 45 yrs. They had 3 children, an adopted Dutch son, 4 grands & 3 great-grands. VIVIAN NICHOL NORDEN is keeping healthy & nicely settled into an independent living retirement facility. She travels a lot, occasionally getting together with MARIE TEMPEST EYRE for a trip. MARIE finally found an apt in the UK that suits her needs & is near her family. Being legally blind does not prevent VIVIAN from enjoying life & traveling. She spent 5 wks with a friend in Malta, in a hotel that had several restaurants. She is going to Italy in Oct. & hopes to be able to spend the winter in FL with her niece. Sandy is having trouble with her hip, so BOB WILLIAMS is adding a gr fl bedroom & bath, doing all the work himself. He also keeps busy with the American Patriot Council he started, wears his 1776 army uniform & carries a 13-star Betsy Ross flag to rallies & celebrations such as Jul 4. MARGUERITE PARRISH HOWARD writes that Hobart finally retired from his job as Field Supt for their church in India. However, they will continue speaking & raising funds for India & plan another trip there in Oct. They moved from Tulsa to Greenville,

SC to be near daughter EVELYN '71 & John LETTIERI. Daughter, PATRICIA '74 & Bill LYONS live in Chesapeake, VA & daughter LINDA '78 & TED '78 NIEHAUS in Clinton, WI. I phoned BETI WEIR WEISS just as she was leaving to attend a grandson's engagement party. She lost her husband Nov a yr ago, says she is doing all right & that she has a very supportive family. She lives on the farm in a house built especially for retirement; son & daughter & their families also live on the farm & the other children nearby. We extend our sympathies to BETI & family. JOE DUERKSON visited India with Mary Lou's blessing as he left her with twin sister Betty & niece Diane. She had a basal ganglion stroke & has recovered nicely, able to get out & about, has resumed driving & has good cognition. JOE'S trip was to help celebrate the Dhamtari Christian Hospital's Centennial. He also visited St Stephen's Hosp in Delhi, Sewa Bahan Hosp in Jagdeeshpur & the Christian Hosp in Champa. He had a great trip, met many wonderful people & was glad to be home. DON RICKARD & Elaine have slowed down & don't drive on trips anymore; she has battled 2 kinds of cancer in the past 3 yrs. They both have vertigo, but Elaine's is worse. She also battles ataxia, which affects muscles & balance. DON's brother SAM '41 had ALS & was bed-ridden when he died, brother JOHN lives in NC. TOM & Janice HAZLETT continue to enjoy good health, but no longer spend their winters in FL. They cruised to the harbors of ME & other eastern states, during which time TOM did his best to decimate the lobster population. They have 2 sons, a daughter & 5 grandkids. RUTH WILKINSON PHILLIMORE moved to Ottawa, CAN a couple of yrs ago to be near daughter & brother BOB '51. She no longer drives & truly misses her car. She is considering moving to an assisted living facility & is busy making a DVD of her India days. Son & 2 grandsons live in Calgary. RUTH STEWART says she is still healthy, works part time for the CIA & enjoys the cultural activities available in DC in her spare time. She attended the '10 WOSA Reunion for a day. SITA BERY SARWAL is keeping in good health. She went with friends for 10 days to Mashobra, a hill station near Simla. In Jun she was at Ananda, a spa near Rishikesh which is rated as one of the top in the world. GORDON YOUNG says his travels consist of trips within 200 mi of home base as he hates plane travel now. Brother BILL '50 died recently in Chiang-mai, Thailand, where he had lived since the early 60s. Gordon has been busy writing & publishing 3 books. RAJ & Marjorie

Stu Leeder '45, Sally Lynn and Bill Duff '45, Marj Bery, Vivian Nicoll Norden '45, Raj Bery '45

BERY are happily settled in a good retirement community in MD, just outside of DC. They took visiited the Sinai Peninsula, Petra in Jordan & even managed a quick trip to Jerusalem & took a holiday in India. They have been together with BILL & Sally Lynn DUFF, STU LEEDER & VIVIAN for lunch regularly. They are also regulars at the DC Curry Club & have another monthly group mtg in downtown DC. Late last yr JOYCE REYNOLDS COUPAL had a stroke-like incident which was diagnosed as TGA. She was thoroughly checked out & is doing fine except has problems with short-term memory. She discovered some writings of her father about his life in India which she is busy assembling to have them published. Otherwise, she & Frank keep busy with their 5 offspring & numerous grandkids. BILL DUFF has recovered nicely from the blood clots & heart ailments so his gen'l health is good. He & Sally Lynn have been participating in a Muslim/Christian/Jewish dialogue group monthly to discuss issues & books they have read, they have learned a lot. They attended a Muslim wedding & enjoyed it hugely. Bill is trying to write more but finds it difficult to concentrate on his research of ancient documents, in particular The Mishna, in order to get some further insight on 1st Century Judaism & Christianity. BETTY ANN SUMMERS DYKSTRA & Peter are doing pretty good health wise although he has problems with balance. Betty Ann resigned from the Mtn Home Orch & the Orch Board, but not until she was instrumental in getting a new home for the Orch at AR. Mtn State U. She plays viola in several groups & does a lot of solos. They have received a marvelous exercise

machine called Power Plate which is new to the US & supposed to be very good for older people. AL BJERKESTRAND regrets not making it to the WOSA Reunion but he didn't want to leave Bonnie although she is doing well in her fight against ovarian cancer. They were delighted to announce the birth of their first great grandson, Beckett. A granddaughter graduated valedictorian of her class & plans to attend Seattle Pacific U, Bonnie's Alma Mater. DOUG & ANN '47 PICKETT visited son Mark, Sinipii & 3 grands in Oulu, Finland, located 150 mi N of the Arctic Circle, clean, modern city with no trash or litter. They fared so well on this trip that they were encouraged to attend WOSA this yr. Experiencing fatigue, Doug had gone to his doctor & tests revealed that he has myelodysplasia, a condition where his bone marrow is not producing RBC of adequate size & quality. A good doctor, medications & an unusual regimen keeps him functioning normally. They keep busy volunteering in their retirement community. DICK & ANNA MAE (S) BOLLINGER stayed with friends in Ft Collins & attended the WOSA khanna as well as having a couple of meals with us. One can't help but be envious of their obvious good health; life in a retirement facility in Centennial certainly agrees with them. RUTH NAVE LEIBBRAND's trip to Ft Collins was her only one as she finds travel more & more difficult. The fact that grandson Nicholas is attending CSU was another reason to visit. Her son Steve drove over from St Charles MO & grandson Andrew drove up from Denver a couple of times during my week's stay after the reunion. I had hoped to experience some considerably cooler weather, but the temperature was in

the 90s every day, albeit a bit cooler than Austin. Our TX summer has been a burner: we have broken the all-time record of 69 days of 100+ F., around 38+ C. I stick my nose outside of the AC only when I HAVE TO!! I keep busy with friends, clubs, bridge, activities here at the Renaissance & trying to keep healthy.—*Ruth*

### Class of 1946

FRANK LOEFFLER is retired from his ob/gyn practice, lives in Aldeburgh, Suffolk, the home of Benjamin Britten & the location of a world famous annual music festival; 10 grands, 1 great, a garden, golf, bridge & volunteer work keep Eve & him busy. Eve's father was the founder of the Paralympic Movem't which highlighted sports for the disabled. Eve was recognized for her work with the disabled & was awarded with an OBE last yr; that included a day's outing to Buckingham Palace. Georgie writes that JERRY SUMMERS is maintaining pretty well with his Alzheimer's, with the help of medication. He is planning to take a class through the local state U sr program entitled Writing Your Slice of Life. He remembers his early life & WS well so will enjoy writing about it & it will be good for the children & grands. They will both be taking 2 other classes. DOTTIE LONG REID & Joe live in a mobile home park in Union Cty CA near SF Bay, 6 mi from their daughter. She plays bridge 2x/ wk in an Am contract bridge league. IRENE DUNN writes: best trip - train ride & hike to UC Davis Arboretum; best museums - Tutankhamun & Picasso; best book - Growing Up bin Laden by Jean Sasson; best exercise - aerobics & hiking. Sasson's sister-in-law lives in her establishment & when Irene raved about the book, she received a signed copy. It was written by bin Laden's 1st wife & 1 of his sons. JEAN ALLISON VAN HORNE & LYNN ROADARMEL KOWALSKE stayed with JANE WALLACE ANDERSON & Jim on their sheep farm to attend our 60th reunion at the Coll. of Wooster. ART MERRILL & Margaret were also there & came down for a visit one evening. Jane writes that the farm is still flourishing & keeps Jim very busy. She went with 3 kids & 2 grands to MI for a wk traveling, relaxation & bonding. In Mar they made a trip to FL where they visited Lynn & 90+ yr-old aunts. They are planning a fall trip to New England to visit grands in Boston. PEG ROSS VAN HORNE & Paul had their 60th anniversary in Jul with their 4 children & 9 grands. Peg had a hip replacement in Mar but has recovered nicely. MARGARET LOEHLIN SHAFER '56 & husband moved to their retirement community & he gave

lectures on Islam & the Middle East as he had been the head of that dept at Fordham U. Peg & Paul enjoy the activities & events in their community & Peg is head of the Health Care Comm. Our sympathy goes out to JUNE BAUR DEWSBERRY & Art on the death of her brother Ralph, of congestive heart failure. Art had a triple heart bypass but has been recovering well. June travelled to TN for Ralph's memorial while Art was taken care of by family members. He is finally off the Bd of Directors but continues his securities arbitrations. FAITH LUBBERS BLIGHT & Dick live in a complex for retired Wycliffe Bible Translators in Dallas. Faith had cataract surgery & a knee replacement but says she's almost back to normal. LOIS DUERKSEN DECKERT & Marion did attend the WOSA reunion. They live in N Newton KS. After last yr's garden bounty, they are in an endless hot, dry cycle in KS. Without a well, they would have no 2011 garden. Their yard looks like an example of desertification & the vegetable garden produces sparingly. RICHARD MENZEL lives in Vermillion SD & maintains interest in wildlife conservation. A recent big thrill for him has been talking a music prof into orchestrating a tone poem he wrote about 35 yrs ago. It is a sextet for English horn (ie alto oboe, alto shahnai), string quartet & bell (13.5 minutes). DAVID MITCHELL & SYNNOVE '55 keep active in retirement & in touch with the churches in PAK & their fellow missionaries. David hopes to participate in a pastors' retreat & the 25th anniversary of the Assoc. of Evangelical Churches. He was granted a visa to return to PAK. Praise the Lord! I sure miss her! CHRIS & Margo APPLEBY have had a great yr. They've played golf all over Norfolk & managed to keep reasonably fit. They vacationed in Scotland & Northumberland seeing Hadrian's Wall & other old Roman sites, in spite of Margot's health. She has another stent to be fitted, so maybe this will do the job. MEITI OPIE & hubby have been working hard around house & property, enjoying their wild AUSian landscape. Kangaroos hopped quite close to the house a few times recently. She still enjoys singing in a French language choir & every Tues after school picks up their granddaughter to practice piano under her strict supervision. retiring in '98. After 12 yrs in India, 5 in Chicago & 9+ in PA as Assoc Pastor in a church which ministers to over 500, they have decided it is time to slow down & will move to [www.GreenHillsrc.org](http://www.GreenHillsrc.org) near their daughter. MARGARET WARD will travel to India via AUS where she will visit a cousin. MARGARET & Dan SULLIVAN report that their apt (at top of a 16-story bldg) did a major shake, rattle & roll on Tues Aug 23 when the heaviest earthquake in over 100 yrs hit the E Coast. The epicenter was about 85 mi SW of DC. Luckily nothing broke! Immediately afterwards, hurricane Irene, full of howling wind & driving rain, passed by. After WOSA they saw more of CO. They are both still working-sort of - & beginning to look forward to a trip to Indonesia & AUS. Ruth & MIKE CONDON had a quiet summer with no travel. They went to Boston in Sep to spend a weekend with their son. WIN is looking forward to our 60th at WS with Riri tagging along. Then they head for Goa to link up with a boyhood friend, a teacher of the Catholic Christian Brothers in Tuticorin. Together the 3 of them will visit Ratnagiri to retrace the steps of King Thibaw, the last king & tyrant of Burma who was exiled there when the British conquered Burma in 1886. In exchange, the last Mogul emperor of India was exiled to Burma. From Ratnagiri, they went to Mae Sot, Thailand to teach Burma refugee children for a mo, which they have done in the past. Though BILL GILSON has had several medical setbacks, things seem to be under control at present. He is a spokesman for Kirkwood Orange, where he lives. See him at [bekirkwoodorange.com](http://bekirkwoodorange.com). He is also president of the resident council, which keeps him busy. ALAN JACKSON (78) & brother Tom (81) hiked for 3 days in the mtns of Glacier Nat'l Park in Sep. Alan & son Mark(48) completed every mi of this yr's Bicycle Tour of CO in Jun, 460 mi for 7 days going through several high passes. In Apr, TARA VARGAS took a trip to S Italy with eldest daughter Yasmine & brother STANLEY '47. They met with bro MALCOLM's '44 family & spent a wk in an old Italian villa on the coast on the heel of the boot, as beautiful as all the travel pictures! The people are so friendly, but no one wants US \$, only euros & the exchange rate was terrible. Nothing really new here, say the BUSHNELLS, except that they didn't go up to the mtns for the 1st time in many yrs. Fortunately, they have A/C at home - nearly a mo of 90 plus degrees. WALT tends the garden, even when it's 90! ASHOKE CHATTERJEE is grateful for the wonderful chance to be with BOB & ELLEN following their visit to Mussoorie & all the thoughts & emotions

that went with it. His book *Rising*, published after 3 yrs of effort, is a story of a group of women & their effort to transform the lives of communities in one of Gujarat's most challenging environments. A huge amount of other work continues in water, sanitation, crafts, culture & with 2 grands 7 & ), it's 24/7 & no sign of rest & retirement! Phyllis & GORDON HOSTETLER toured across S NE stopping at Red Cloud, Willa Cather's home town. Phyllis helps in the county library. Son Mike is one of the unfortunates looking for work, they hope that things will turn around soon. The 3 grandsons 19, 17, 8 are growing up quickly. LOUISE GAULT JOY lives in the country town of Heathcote where gold was found in the early 1850s. She & Dary have coffee most days in the Heathcote Gallery & Winery, the original Craven's Grocery shop. They plan tours of the Pink Cliffs to show friends. The earth is colored due to the implements used in gold digging. She is Secretary for Friends of Vellore VIC, busy arranging functions for visitors from the Christian Medical College where her parents worked for 25 yrs. Brother JOHN '48 lives nearby in Bendigo - much gold found there with beautiful bldgs. She has 3 children in Melbourne & 1 in Sydney and loves reading Roman history & science. NIRMAL CHAND continues to keep us all up-to-date on addresses & adds to the news when he has some - a great boon to the class. TONY & Teddy Parker are in temporary residence in CA awaiting a move to NV. The CONNELLS also felt the quake, but neither they nor LOEHLINS had real damage from Irene. CONNELLS stay constantly busy with church music & grands. KEN DYE spent 2 wks in hospital with pneumonia, so had to miss the CO reunion. PRONOTI SINHA works constantly to make the eye clinic a viable place of healing. With so much violence & crazy weather around the world we who travel may be foolhardy, but we wish the whole class could have been with us this yr at our alma mater one more time.—*Judie*

### Class of 1952

JOAN BERGSMAN MANLEY & David make their home in Vallejo CA, not too far from daughter & family. She reads a great deal but has not written for some time. Her health is good but at times feeling a bit frail, as we all do. DARLENE BURROWS TENNISON lost Bill early Sep a yr ago, after a valiant battle against melanoma. Darlene, following his wish, remains active with a small chorus group, Sweet Adeline & was able to join them for a nation-wide contest in Seattle during Oct '10. MARY CHU YAO & brother John had planned to visit China this

summer but the intolerable heat at DC reminded them of the folly of climbing the Great Wall in the summer heat. Mary continues to teach English & finds the experience challenging, rewarding & ultimately satisfying. DAO-ZEUN (TZ) resumed working, managing the leading supercritical fluid chromatograph co while continuing to advise univ chem depts as a volunteer. He & Irmgard are delighted with son-in-law's transfer to San Francisco; the grandchildren & family now live only a half-hr away, instead of across the country. DAVID STEIN & Achva have become involved in developing a Master Plan for the Greenbelt in Auroville, Tamil Nadu, where they visited twice this yr & have been tremendously recharged by the renewed contact with the problems & opportunities. ### Class of 1961

JULIE BUNCE ELFVING continues to be active with the Extension Master Gardeners program, which provides enjoyable camaraderie & a sense of giving back to the community. She serves on the board & exec committee of The KS Rural Center, was involved in the search for a new Exec. Dir. Water aerobics, karate & tai chi round out the active side of her life.

She took a brief garden-focused trip to the Brandywine Valley area of eastern PA & Philly area. At the WOSA reunion in Jul she enjoyed conversations with Max, Walt, Woody & other WS alumni.: During the last yr WALT BELL managed to achieve 3 bucket list items: a rim-to-rim hike of the Grand Canyon, climbing Mt. Sinai & a hole-in-one in golf (1st in 50 yrs). They travelled to the Middle East a yr ago. Syria was calm at the time & they had a wonderful trip, including a visit to Damascus. They were especially blessed to visit the site where Saul (enroute from Jerusalem to Damascus) supposedly stopped to water his horse & was blinded by the Lord. A grandmother with her daughters & granddaughter gave us some apples & coffee. One of the greatest experiences of his life! MIMI SORLEY HINTERKOPF had delightful visits with WILLI KREITZ in TN in Jun & JANET SMITH in KY. WILLI WELLMAN KREITZ is still living in TN, made it thru this very hot summer because of AC! Looking forward to a long & pleasant autumn, if hopes & prayers are answered. The highlight for SUZANNE LA ROCQUE MCCLINTOCK has been the birth of the 1st grandchild, Gavin David McClintock, in May. He & Marty have enjoyed visits from old friends, including Phyllis, the widow of JIM MCMEEKIN, who recently remarried. In their camping trailer, they visited HENRY PRESLER '58 & others & Paul helped JOHN WILSON cut 100 foot tall Aspen trees for firewood. JOHN PARK was at WS only in gr 9. Although at 1st he hated having to go to India, it was an amazing yr & he has many fond memories of escapades & experiences. He returned to CAN, got an engineering degree, worked for a couple of yrs, got a MBA, worked as a mngmt consultant, then started his own co & retired at the ripe old age of 54. Now he is a compulsive day trader in the stock market. This spring MAX STEINKE & Judy bought a RV, reportedly to simplify traveling. They found

that while it is nice to have the flexibility to stop any time to eat or sleep, there is a lot of work involved. The unit is not big enough to live in comfortably, but is too big to drive around places they want to see. Maybe a Plan B. He greatly enjoyed the WOSA reunion, getting reacquainted with Walt, Woody & Julie, hope we can all get together soon. WOODY TURNER practices law in Leesburg VA, but takes time with Trudy for children, grandchildren, travel & hiking. Enjoyed visiting with classmates & other alumni at the WOSA reunion & looking forward to next yr in Seattle. JOHN WILSON is working on his adventure-thriller novel, draft three. In spite of Mr. Swain, he was 67 before beginning to understand the concept of sentences, so has room for yrs of learning. He attend Linda's Continuing Movement class - all 3 of them for 30 Thursday evenings - a lot of movies went unwatched. After 20 yrs of movement work, he has the best standing & walking posture & easiest movement since 5 yrs old. That's cool. May peace & health be with you & with us all in the world. Definitely avoid reading the front page or watching the news. Definitely treasure your friends..—Julie

He says he has retired, has dried out & is becoming wrinkled. He has urged his retired prof friends to look into teaching at WS. Gary has appreciated all the school & class news over the yrs - all stirring up great memories that he doesn't dare divulge to the public! DOUGLAS ENSMINGER imagined spending his declining youth in leisure but finds himself busy preaching several Sun a mo in smaller congregations that cannot afford well-trained clergy. Doug & Linda are headed for a cruise to AK with daughter Megan & family. CHARLES GIBB was horrified at the Apr tornado destruction of nearby AL cities & thankful that his home is nestled just right in the hills to avoid much of the wind. Chuck & Diane have numerous trips planned, all involving opportunities to fly fish: Yellowstone, Jackson Hole & even, next spring, Spain. MARILYN GOOD SINGH enjoys painting scenes from the OR coast, This was reflected in the paintings she did for her exhibit as guest artist at the Apr solo show of daughter Melissa at the Tinman Gallery in Spokane WA. A painting she did of an oak grove was donated to the Green Belt Land Trust art auction. JILL GOOD-FRIEND continues with her grief counseling business specializing in bereaved "pet parents". She visited daughter Alexa, husband & their 2 sons in HI & while there carried out her mother's & brother's last wishes by placing their ashes into the Pacific in a Hawaiian surfing ceremony. Although retired, CHARLOTTE HEATH FRASER does some social work consulting as she is still passionate about making sure kids in the system have the best lives they possibly can. She & husband moved back to OR where they can be near all the grandkids & great grands & family. CHARLES HORTON writes he has been retired 4 yrs yet has continued working. But now he has lined up travels with his wife to numerous places including Singapore, Kuala Lumpur, Beijing & Ulaan Baatar. After that, maybe South Africa & Namibia & the class 50th Ann trip to In-

dia. MARY MAE GINN has moved from her home in Cleveland to an apt in a great walking neighborhood in Lakewood OH. SUSAN HOSTETLER GUIPE attended the WOSA reunion in along with her siblings. As with other WS families, this has become a great time for a family reunion. DANIEL JANTZEN has been researching what really happened to the Central Asian explorer William Moorcroft & whether he spent 12 yrs in Tibet in the early 1800s. A related activity has been to assemble a digital library of books, journal & maps on the exploration of the Himalaya, Tibet & Central Asia. Dan keeps a car parked in Haridwar & makes several trips a yr to India, Nepal & the Himalaya for a mix of consulting & exploring. GEORGE MCBANE & Gail made a surprise appearance at the WOSA reunion. They have retired from their work in PAK but are planning to go to South America for a stint & then hopefully back to PAK. In the meantime George is recovering from shoulder surgery. Having been at KS State U since '76 ARUNA NAYYAR MICHIE & Barry have set actual dates for retiring. Enough is enough, she says. DAVID SALMON & Christine took the Inland Passage cruise up to AK marveling at the beauty of the lush fjords & glaciers. After that trip David took his mother & sister to the tri-annual family reunion. After selling his business in Apr & retiring, DAVID SCHOONMAKER is now active on FWS & WS Boards, which includes visiting India 4 times a yr. He is also trying to take up golf. David & Eva visit their house in South Africa to break up the northern hemisphere winters. Sons Sean & Allen are in Oakland & Hong Kong, so family reunions are a challenge. At this time of her life VICKI SCOVEL HARRIS is appreciative of living in Small Town Midwest USA after living in distant parts of the world & several USA areas. With this setting in mind know that she, as Community Rel Assist of little ol' Cameron Hosp in Angola IN, ended up being in charge of organizing Cameron Hosp's 3rd yr's entry into the town's parade - Cameron's Bedpan & Kazoo Band. SUE WARNER BIRKINSHAW sent to all Warner cousins bound copies of research on her paternal grandmother's ancestry & descendants. This endeavor was sweetened by meeting & sharing information with distant living relatives. DOUGLAS WILKENS & Fran are brand new grandparents to Kristian August Wilkens, son of Joel & Sara. The babe arrived on the auspicious day of Indian Independence! The young family

plans on moving to live nearby. As to the Class of 62's celebrations for Yr 50 - so far the plan is for gathering just ahead of the '12 WOSA reunion in Seattle and/or a trip back to WS for those who wish to travel. Keep in touch!—Sue

### Class of 1963

This past yr had BARBARA AUSTIN getting settled in a condo in Naples FL. My partner & I live in the same bldg as LAUREL BURGESS, which makes retirement even better. Health is good, weather here perfect & life is good. TED CHITAMBAR has been in TX for 2 yrs, still acclimating. We have joined a church, becoming more active in the varied ministries that are offered. This summer, we rented a house on a lake in VT & had 8 of 12 grandchildren. DORETTA ELLIOTT CRAWFORD's mother, Almeda Elliott, passed away last Feb. (Mother of MARGO '58 & DeeJay '63.) She & my Dad Leon Elliott who passed away in '02 ran Childers Lodge guesthouse in Landour from 50 to '62 & were active at WS functions. The big trip for LOUISA (RICE) GOEBEL was to China, where her parents had been married in 36. We went with a group of MBA students from Winthrop U in Rock Hill, SC, led by a cousin who teaches there. Our son Paul & grandson Reed (11) went along. Paul & I are doing well, he is very involved in a Peace Conf at Lake Junaluska, NC. We do other volunteer activities & try to see children & grands in Memphis, TN & Spokane, WA. For JOY RICE GRAY, the yr started with a great tour of N India & Nepal. I was amazed to find how familiar the landscape & flora & fauna felt. I loved stunning waiters with my Hindi; being there at wedding season was a plus. Paul has not retired so SUZANNE TURNER HANIFL is home most of the yr. We did spend more time in Naples FL last winter as he was recuperating from heart valve replacement. Both of us play golf & enjoy the 6 grandchildren visits. We spent 2 weeks in Italy with daughter Kerry & family in Aug. KAREN ANDERSON HOLDEN formally retired in '09 from the U WI-Madison, but "still teach in the School of Pub Affairs & continue my research on retirement behavior & financial literacy. An article on very young children's cognitive developm't & understanding of financial concepts led to an invitation to advise Sesame Workshop as they developed the ideas & script for a now released DVD *For Me, For You, For Later* aimed at teaching pre-schoolers about savings. It was a thrill to see a day

of filming! I continue playing & dancing to Cajun music: with the Cajun Strangers (see [www.cajunstrangers.com](http://www.cajunstrangers.com)) & an all-women's band, the Prairie Bayou Cajun Band. ([www.prairiebayouband.com](http://www.prairiebayouband.com))". HANK LACY

loves semi-retired life on the water along the Patuxent River, just off the Chesapeake Bay. Son Henry lives nearby in Arlington VA & daughter Lillian in Manhattan with Michael & daughter Alice (17 mos). ELLEN (ELLIE)

DOBSON LIVINGSTON attended the WOSA reunion with sister JANICE '65 & cousin MARCIA MCKELVEY OLSEN '66; we had a marvelous time reacquainting ourselves with many from our past! I'm still in Denton TX where 2 children & 4 grandchildren live, working part time as a caregiver for the elderly & also for a precious 20-mo old boy! I'm active in my local Denton Bible Church, as well as enjoying family & many friends. ED SEELY met Karen, got married, living in same area, selling her house, remodeling & adding to his old house & enjoying his new life. Has gained 3 children & 7 grandchildren! Still enjoying golf & travel. VIVIA DAY TATUM & Jim have continued to enjoy hosting vacationers on Lake Norman. They meet many people from all over the country & their lives are fuller because of it. Daughter Carolyn & family live nearby so they enjoy watching grandson Michael play soccer & baseball. Daughter Brenda & family live in NJ & visit back & forth. Vivian has enjoyed tutoring students preparing for the GED program at Mitchell College. She also has joined a kayak club that meets to paddle on the lake. After a memorable trip to India last yr DAVID WAGNER & Connie have stayed pretty close to home. He has done a fair amount of gardening, botanical work & a little teaching, Connie has done pottery & spent a lot of time doting on our new grandson. The big effort has been a top to bottom remodeling of our kitchen, from the floor literally through the roof. Three new skylights have brought new illumination. We are looking forward to a little regional travel. KAREN ESKILDSEN WILCOCK has finished a 2nd yr of retirement & life just keeps getting busier. Our granddaughter was 1 in Dec; my new puppy is keeping me on my toes. We have had quite a few short trips this yr - MN, MD, MA & GA, birding on Monhegan Island. David had consulting assignments in Haiti, Ghana, Mali & Burkina Faso. We also tried a ses-

Jackie and Ted Chitambar '63 at home

sion at the John Campbell Folk School in NC. I wove block designs in rag rugs & David discovered he should have been a painter all along. The garden is producing enough for a farm stand (which we do not have) & various volunteer activities (library, coastal recycling comm, the Ark Animal Shelter, Food Pantry, District Pub Health Coordinating Comm.) absorb the rest of our time. We are also active in the local UU church. I wake up every morning feeling happy to be in such a lovely coast of ME, grateful to be retired & also mindful of our good fortune compared to so many. BETSY WOODMAN is working on the 2nd of a series of 3 novels set in a fictional Himalayan town. The first, Jana Bibi's Excellent Fortunes, is due out in May; from Henry Holt & Co, Inc. Jana Bibi is a Scottish woman who gets talked into becoming a fortune-teller. She has a multilingual talking parrot. Hi to all my beloved WS friends.—Suzanne

ANJU DAYAL MATHUR enjoyed spending time with 16 classmates with some spouses, after 48 yr, in Noida, Delhi & at WS. A tour of the new WS revived a lot of memories. Upendra & I visited son Sanjeev and family in Hong Kong, a planned visit of 45 days extended to 3½ mo. JANICE DOBSON BLANKENSHIP retired from teaching & admin in the Broken Arrow Pub Schools in OK after 36 yrs in educ. She will continue to work part time in various positions in the field in the Tulsa area. Husband Duane is also semi-retired so plenty of time to exercise & work on projects together. I am also back to teaching Op Mngmt at the local state uni, online & ground. The trip to WS & Kathmandu was so important for me, a time warp, having been gone so long. But the magical na-

ture of Landour itself remained the same; I had forgotten that, lost in the midst of adolescent turmoil. ALLAN KEISLAR (Anand Kishore das Babaji) is writing, practicing multi-religious bha-jan & delving ever deeper into the life-giving mysteries of transcendental tantra with goddess-guru Savitri Devi. Allan's latest book, *God's Work Among Us*, presents stories from various faith traditions as integral parts of humanity's common faith journey. In Aug JESSIE LACY gathered with the extended Lacy family to celebrate the lives of parents Hank & ELIZABETH PICKETT '35 LACY & to scatter their ashes. It was a day of memories & gratitude for their lives & the life & love they gave to us. Last fall, it was a joy to share the experience of our class reunion with daughters Elizabeth & Miranda Doxology sung before breakfast, the walk through the bazaar, hot cups of chai, jalebies hot off the fire, chatting with Mrs. Kapadia, langurs racing across the roof, the snows, the crisp night air, rain on the tin roof, exploring Doshisha, the familiar & the exotic, old friends & new, but most of all, the camaraderie of our group. Although Lee & KAY MARING ROSSELLE still run our Mirror Place business, we have cut back hrs so consider themselves semi-retired. Fortunately, we have very competent employees. We fly small airplanes & were able to take oldest grandson Alex with us to AirVenture in Oshkosh WI, where we camped next to the wing of the plane. I am going to Portland, OR for the Karachi Am School reunion. KAREN MCCRAY MODDER-BORDER asks: has anyone else noticed how incrementally faster time passes the more birthdays we celebrate? Thoughts of our reunion give me joy over & over again! I still edit my union newsletter, the GLUE & teach an occasional adjunct course at Concordia; & Mary continues the good fight as pres of the Kenosha Ed Assoc. The lives of EMRYS REES & Usha changed forever when they added HIV/AIDS work to their free hospital in S India in '02. Over 5,000 positive cases benefited from treatment. We have been able to keep children from becoming HIV positive through our Prevention of Mother to Child Transmission, a project which now covers 4 million. Our toughest task is getting funding to help about 100 HIV positive kids, many of whom were once in the AIDS categories, improving their immune system with govt. help, but also improving their lives. We are in the final stages of setting up a home for 8 HIV orphans, trying to find the funding to finish the construction. PATTY RIDDLE won 2 gold medals (in the 500 m & match sprint) at the Masters Bicycle Track Nat'ls in PA, also helping her coach write a book about coaching bicycling & being a volunteer volleyball coach at a local HS.—*Jessie*

David Rugh while counting bowhead whales during their migration past Point Barrow, the northernmost tip of Alaska. He was standing on a perch of sea ice piled about 30 feet above sea level, and it was cold (-20 deg F much of April), so the ice in his beard is real. Behind David is a canvas windbreak and radio antenna.

It was pouring down rain...but spirits undimmed.

Since 50 & '51 are the birth yrs of our class, half of us have turned 60. Birthdays were marked in various ways. JANET ALLEN MACHULA took her granddaughter to a parade only to have her announce that her Naani was 16! Made Janet, grandma of 7 feel young! JAMIE CLAYTON LED -

FORD spent it in FL with her favorite person, grandson Matthew. JOY FINNEY spent each night of her birthday week-end being feted by family & friends & a curry dinner with classmates TARIQ KIDWAI, ELLEN MCINTOSH TODD, DOUG NAVE & MARY SELF SKARSTEN. PHIL GROSS climbed Mt Kinabalu in N Borneo with MIKE FLUECKIGER (S), husband of JOYCE BURKHALTER FLUECKIGER '70. ADA HAAGEN BRUCE thought she turned 60 last yr when the family celebrated husband Michael's 60th by going to a Caribbean resort. PAUL HAMILTON & Lynn went parasailing, in FL having driven Paul's parents there for a vacation. (This was a nice respite for Paul who travels all over NA giving workshops on the use of digital learning tools to meet unique learning needs of students.) DOUG KEISLAR has an age-defying plan to have birthdays in 10yr increments, making him 69 this birthday in honour of our class yr, then 79, 89 etc hoping to collect big on talk shows, social security etc. Wife Jane had a gathering of longtime friends to celebrate. DAVID JENNINGS says 60 is middle-age if going for 120. Among other things he is a bilingual announcer for special events around Halifax NS. DOUG NAVE is proud Grandpa to Ada (13mo) born to daughter Carmen living in Waterloo ON & John Robert (6mo) born to daughter Lenore living in Toronto). Many agree being a grandparent is the best club ever & JOHN WHITCOMB asks how to nudge the process forward in a politically, socially, ethically, morally, gently, successful fashion as his 2 kids are busy pursuing professional lives. On the other hand, our parents are advancing in yrs & also into eternity. CHERYL BEACHY PAULOVICH went from home in AZ to see her Dad (92) in Goshen before he died, just before Easter, leaving his wife of nearly 70 yrs. at DORA's father's 90th birthday. JOHN is a medical doctor in MN. VINTA SHUMWAY OVIATT enjoyed a talk by the Dalai Lama this past May at nearby UC Irvine. One of the highlights of my life is meeting him in person when I was 12, along with Miss WESSELS, a former teacher who became a missionary to the Tibetan exiles & ran a girls' school that I stayed at several times. We had tea with the Dalai Lama in a small room on the other side of Landour in the Tibetan area. I remember that he was very friendly, had a great laugh - which he still does - & asked about my school. He appeared much older when I saw him this May but not changed that much in his spirit & I thoroughly enjoyed his informal but thoughtful discussion about the social & political issues in US, China, Tibet & the world. DAVE PREWITT & Carol are in their 7th yr at the American Int'l School/Dhaka, Bangladesh (Dave's 41st yr in Asia.) He has earned his professional counseling license & plans of retiring to their CT home in the not too far distant future. TERRY WEIDMAN RUSSELL retired from her nursing job at Providence Medical Center in Portland OR in time to prepare for the wedding of daughter Christina in Aug. Brothers TIM '80 & DAVID '75 & their families also attended. TERRY still volunteers at her free, church sponsored clinic which serves the unemployed & working poor. RUTH HARPER AXELROD teaches mngmt part-time in MD; both she & husband, David Canfield, are deeply involved in local volunteer work—she to help clean up the Chesapeake Bay & he to raise money for local nonprofits. Their mo-long pilgrimage-of-the-heart to India starts at the WOSA Centennial Celebration. POLLY PETERSON & JAMES GEDDES (S) are in San Diego enjoying being near kids & grandkids. Due to the state of the job market, work is sporadic but we have taken on several volunteer opportunities. POLLY has spent most of the last 6 mos helping to develop a Community Center for the Arts for neighborhood kids. We also like to visit with WSites whenever we can. PAUL SMYRES lives in Millerton, NY with wife of 10 yrs, Priscilla. She's a Jungian psychoanalyst & artist. He's still doing aerial photography & taking flight lessons, as well as working on his many websites/blogs with internet advertising. He does social media marketing for brother PHILIP's '87 UK online book co, *Fatbrain.co.uk*. Older son Robert

& wife & daughter Sarah & husband live nearby. Younger son Evan lives in Thailand, works for Philip. I have 2 granddaughters & one on the way in Thailand. My parents are still alive in N FL, but mom (88) is fading now. Fond memories of India & WS are still with me. I enjoy hearing from WSites. JOHN EVANS & Lynne are starting their 3rd yr at the Int'l School of Beijing. John also serves as Pres of the 1,200 member Overseas Assn for College Admission Counseling. In Jul in Calgary, CAN, he chaired the annual OACAC summer conference of over 700 attendees from all around the globe. Lynne & JOHN enjoy being close to their 2 kids & 4 grandchildren who live in Hong Kong & Chengdu. MARK KENOYER, was elected to the Am Ac of Arts & Sciences, a very big nat'l honor. He continues to teach at the U of WI, Madison in the Dept of Anthro. He goes to PAK each yr to work at the site of Harappa & also visits India to meet with archaeologists & collaborate on various archaeology projects in Gujarat. He was able to visit Dhaka to give lectures; spent a mo in China at the site of Anyang & gave lectures at the Inst of Archae in Beijing & took a short trip to Mongolia & South Korea where he participated in mtgs, gave lectures & visited many archaeological sites. For summaries of his work & photos, see [www.harappa.com](http://www.harappa.com) BRUCE BROWNE has taken a job in Doha, Qatar, teaching at the Community College of Qatar (CCQ), Theatre & Public Speaking. Life in Qatar is interesting - a very modern city with some interesting quirks & very warm: it has been about 104 most days since I've been here. A little like living in the plains of India, except we have the advantage of air conditioning! Our house in Sheboygan is on the market & Nan will join me once that encumbrance is taken care of, which could be a while. Our plan is for her to come here in Jan, as by then I will have a Qatari ID, which allows family to live here without a tourist permit. NANCY JOHNS ERICKSON & Don live in Lebanon MO. I am involved in volunteering through Crosslines & my church. My parents live in Sedona AZ near sister ANITA '71 & brothers MARTIN '75 & GEORGE '76. I just visited them & took my mother to the Indian dinner for ANITA's class reunion which

Reid Blickenstaff '70, Lynne & John Evans '70 in Beijing

she & I enjoyed thoroughly.—Nancy

She spends a lot of time with 2 new miniature horses, one that will foal next yr. I enjoyed driving to MI with Anisha to see some of you for our collective 50th birthday celebration. Extended family here in Winnipeg & Steinbach is also a regular draw as our clan gathers for birthdays, graduations & to see off the older cousins as they launch into their young adult lives. MERTI DJLANTIK RITTGERS has been busy. Son Tobie is now in Iraq, I took some classes, renewed my OT career, went to Belgium & Holland for a mo as my Honorary Dad passed away from skin cancer. But I also got a chance to visit with DEANNE LEHMAN for a weekend in Brussels! KIRAN CUNNINGHAM's son Kyle is a sr at Wooster & Brian a sr in HS; she was the one who hosted our birthday celebration at their cottage the Pebble, on the shores of Lake MI. We enjoyed the beach & sun, bonfires, stories, sailing, paddling, good khanna, some deadly jungle-rules croquet, not being connected to any grid excepting electric, sunsets to die for & stars not seen since Mussoorie! A good crowd stayed on to attend Blissfest music festival nearby complete with Irish-listing bhangra! JOIE MORRIS DEWOLF '72 & Dave also joined us at Bliss where we also met up with DAVID BUNCE '67. We had a good crowd at the Pebble, Kiran, Russ & family, Carol, Dale, Allison & Anya, Sharon, Steve, Dorien & Robin. KEVIN SCOTT, Martha & GARETH '12 sandwiched us between 2 music festivals & a visit to nearby friends, Anita S, Shobhana. MONU BOSE made time for us after a recent trip to India, Bonita & Anisha came down from Winnipeg & JAMES HACKNEY was there to make sure everyone was overfed! I have had a busy WS-adled yr with a concert visit from STAN

LEHMAN (S) & Kevin, a visit from a few Canadian friends, an impromptu trip to Toronto where I connected with ARIF MAHMUD & family, CARLA REIMER, HEATHER HILLIARD, SARAH HUNTER '78, Jane's daughter Rebekah, BRIGID WARWICK VAN DER BORGH '80, NICOLE GARGA O'HARA '80, HEIDI FURCHA '81 & my new brother CHRIS HALE '85. The Toronto trip was followed by a visit from Joie & Dave & then Chris brought his band Aradhna down for a concert in the Asheville area; a short visit from DAPHNE WYSHAM (ask her about her life-threatening river rescue & arrest in front of the White House). A family reunion in Jun followed by the 50th gathering in Jul. Throw in some camping & biking & life is good. Come visit & stay in touch!—

Julia has moved to half-time work as a student nurse & reports that this summer she acted in a movie! DAR SEAMAN SILLIMAN writes that life as always is busy & full for her & Tom. We are milking 6 cows at our little micro-dairy & still making a living by selling raw, organic milk, pasture-raised eggs & meat. I just applied for a food processor's license (commercial kitchen) which will allow us to make some value added products to sell in our store. We will start out with jam & jelly & things like zucchini & pumpkin bread & berry muffins. Our basic rule will be that a main ingredient has to be from the farm. If that goes well, we will branch out into other things. I think cheese is on hold indefinitely as we keep selling out of milk. Savannah is in MS, loving it & keeping busy in her spare time riding Olive & helping out on the farm. She did very well in her 1st yr in 4-H Club & won an award for the best Novice rider of the yr for King Co WA. Life is busy with our children aged 6, 8, 10, and 12. As TINA FIOL SIMPSON nears 50 yrs, she understands why most women have their children much earlier than she did! She still works from home as a recruiter for Mission to the World (PCA) where she has been for 22 yrs, counting 2 yrs teaching English in Japan. Her husband Bo still works as a commercial real estate appraiser, where he's been for 2 decades as well! We hope that shows stability rather than that we're dull! My Dad, BRUCE FIOL '56, accepted a new position with MTW (my employer, as well as his former employer) as US Director for the

Class of 80s second generation – Shayan Nejad and Jivika Mehra at graduation, 2011

with Vinay's daughter Jivika. He's now back in Greece after a brief stint in Mumbai where he appeared in a TV commercial doing stunts. Fardis is planning to host the class for a collective 50th birthday celebration next summer. If you think you might enjoy swimming in the Aegean, hanging out in mtn villages on beautiful Mt Pelios & enjoying multiple glasses of ouzo, accompanied by delicious Greek food, then you should keep a close eye on your email as Fardis finalizes dates for this gathering. From Greece Beth traveled to S Asia & writes from Lucknow, India: I spent the past yr organizing a non-profit corp in the US to work on improving schools, with a focus on teacher training. I've just finished 5 wks in Kathmandu at the Rato Bangala School, with which I've been associated with for over 20 yrs. I'm going to be editing a book about their story, so was busy with that as well as with teacher training. In India I'm seeking out potential future projects & will also be in Mussoorie or about a wk attending celebrations for the 100th anniversary of WOSA. I phoned DARAB NAGARWALLA & learned that he, Naz & Vanalika are planning to attend a family wedding in Kashmir next summer. SUDHA KAUL's son Arjun is another '11 HS graduate & has started his 1st yr at UC Berkeley, where we're sure he'll do well. Hoping to meet some of you in Greece next summer to catch up in person. See you there!—*Beth*

India, Sri Lanka Partnership. He loves being more involved with India again! It's been a busy yr for SARA AHMED. ### Class of 1988

ANDY MALHAN is in Delhi, running a graphic design & visual communication studio. Last yr I did a photography course with the legendary OP Sharma & it has breathed fresh life into my work - I'm doing much more photography than before. I just got back from a shoot on the outskirts of Karnal where I spent the day wading through rice paddies & kneeling in muddy water to get the right shot, all the while worried that I'd slip & wreck my camera! I'm thoroughly enjoying this - it's reconnecting me with the 2 things I am most passionate about: people & nature. RAJESH PANDAY, wife Yuko & cocker spaniel Coco are trying to live a tranquil life away from the hustle & bustle of the world's fashion capital, in a small town called Abbiategrosso, 20 km from Milan. We moved into a wonderful apt in a recently restored 14th century convent (now apartments only) with frescoes on the outer walls & an ancient Italian portico. I run a small communications consultancy that tries to put responsibility & accountability back into the sordid business of marketing & PR. ERIC NORD & wife Andrea continue working at Penn State U as researchers in plant ecology. Son Joel (11) is into making music & fencing & daughter Emma (8) enjoys dancing & cooking. They are looking for college biology teaching jobs. MOHANA RAO is in the UAE, running Ideal Management Essential, a Business & Marketing consultancy since 06. Started a bespoke & prêt-à-porter jewelry line in 07; launched the new collection from MOHANA - La Primavera online now. SONAM CHODEN DORJI writes, paints & travels,. Has 3 kids. Tenzin Wangchuk (18) & daughters Drayang (10) & Tsherim (4). We live in Thimphu, Bhutan, working with husband, businessman Wangdi Jamyang; we are in the process of inaugurating Bhutan's first pharmaceutical co & have established a bio-research wing where many new & interesting insect/plant fungi are being studied for further development - cure for cancer? MANISH ACHARYA lives in McKinney TX with wife Pragya & 2 kids (Ahan & Zoya) & Chase (9 mo yellow lab) & works for Essilor of America in business developm't. ROHINI DATTA has been in Mumbai since graduation. Finished my BA & MA in English Lit

struction to PA public school kids. So 3 days/wk I get up at 4:50am, throw on some clothes & wander down the 40 ft of hallway to my office (Shortest. Commute. Ever.) where I don headsets & mic & class begins (time difference means their 1st period class is 5:10am for me). I teach 2 classes before 7am & then kids go off to school & I return home to teach a 3rd section of Russian 1A. I'm looooving it! I get to work in a field that I love & be a stay-at-home mom! I recently got an email about the 12 WOSA reunion, to be held in Seattle- yay! It'd be very cool if anyone wants to make that

one. I can provide free digs in our humble guest room (albeit we're about an hr away in Olympia, but still...) Anyway, something to look forward to!—*Mohanna*

WERAPUN LIMSETTOE lives in Thailand. Our son Jun (6) has entered gr 1 in a good day school in Bangkok, daughter June (2) is a little rebel, just like me. Otherwise, life is great. NEE-

Simran Malhotra '90 and children Armaan and Amaya

TA PATEL CRAWFORD lived in CO for almost 3 yrs, the best part was living close to NESA. However, after the birth of our son, Dylan, we decided to move back closer to family. So in Mar we returned to our old home. I was fortunate to keep my job with McKesson, now work out of my home. I run the marketing communications for a div, but also took on a product role. So between having a baby, the move & work, life is busy & good! Also keeping running, did a few races & trained for a half in Oct & Jan. CHIHO MAKINO was discharged from the hospital after a stay for 2 wks for meningitis. The Makino-Geier family moved to Singapore early Sep, she is working for Citibank.

MONI BANERJEE BRISSON & Jean-Marc were delighted to welcome a Neil Banerjee Brisson, on Sep 29 10. The darling baby is perfect (except for the fact that he doesn't sleep at night!) & mommy & papa are totally in love with him. Moni is enjoying staying at home, watching Neil reach his milestones. For the time being, they are living in the Washington DC region. They would have loved to attend the reunion, but logistically it will end up being too difficult with a baby. The update from KATE WOOD RICHER in Ottawa CAN is that I had my 3rd baby in the fall & for that reason can't join you all at the reunion. My girls (3) & (5) are getting so big! I'll be taking another yr or 2 off & then will be back to work as a lawyer with CAN's Dept of Justice. NANDITA GUPTA is in the

on staff. Monica's daughter ARADHANA '10 showed Ajay & me around the school. She was a great source of information & really friendly. Thought it was hilarious that the kids who are graduating now hadn't even been born when we graduated! ALKA WALTER-KUPPACHI has lived in Charleston SC for the 3 yrs & has now moved to Iowa City IA. Husband Sarat will join the faculty of transplant nephrology & I will attempt to get back into residency. Aaarrgh. It is an uphill task having to start all over again & when I get in, I WILL be the grandma of the class! Unfortunately, there is no choice! My Indian degrees or work experience are of no

worth here. Tanvi is a gr 1 with attitude, Anika (2) a happy personality who tries to keep up with her older sister. Don't know if any of you will be in Iowa or close to it. I know Sumi '91 & Devi '91 went to college there so will check with them. As the year winds to a close we have had the opportunity to speak with, meet with & remember times that have gone by. The Class of 91 organized their 20-yr reunion during the Oct celebrations of WOSA's 100 yrs. To all of us that were there thank you for making the effort & to those that were not I hope that the pictures speak at least some of the thousand words they represent.—Palden

Alka Walter '91, with Tanvi and Anika

US for a study course. The interesting news is that SMITA JHA has moved to Delhi & I have met her a couple of times & RAJEE ARYAL was also in Delhi, regarding medical care of her mother who underwent a knee operation recently & the three of us got together. Rajee & I last met on graduation day in WS, way back then & I suspect it had been equally long for Smita & her. It was wonderful catching up after so long; we did speak about a mini -reunion in USA for all those who are there & in touch. We will keep you posted! NANDITA '91, RAJEE '91 & SMITA JHA spent a few hours together in Delhi before Nandita flew out to the States & Rajee left too. I hadn't seen Rajee in 20 yrs. And maybe I need glasses, but everyone looked the same! I went up to Mussoorie in May & had a great time. Met ABHRA B '92 & MONICA ROBERTS, both

## Class of 1992

The class has been busy planning our 20th yr reunion these past few mos. Discussions have been ongoing, largely on Facebook, so those of you not on, please join. This yr has seen a number of additions to our '92 family, with the wonderful welcome of a few lovely babies. We have also had a few weddings & some scheduled to take place this yr. LALI, MAYAR & SID also visited India. ABHRA BHATTACHARJEE & MAYADUTT are working at WS. Abhra's boys are in school, Farhan in gr 3 has started piano lessons & Armaan thinks his gr 1 teacher is cool! But news for the jottings has been scarce & slow since this time I could not bully the class into giving me news, so I regret to say this yr our jottings will be short. The news that surprised us all is that ASHISH SETHI got married this Christmas! He's still in Sydney, but the wedding took place in Delhi. So here's what came in as news. VINEETA WADHWA is back in Bombay, loves being here, the chaos is strangely addictive. I'm working on a TV Show & a website for custom made clothes, so that's been keeping me busy. I was able to see KAPIL, ASHIMA NARAIN, RUCHI '91, Ashima's sister & APOORVA SHRIVASTAVA '91. Fun mini-reunion! The class reunion sounds like sooooo much fun!! I hope I'll still be in India next summer, don't know just yet. MOA YADEN can't make it for the WOSA 100. I have a big concert coming up, playing for an int'l American blues/jazz artist in Dimapur, have been slogging it out practicing. In Jul, PRIYA SATOW & Richard had a baby girl, Kiran Emmanuelle Crothers. We are enjoying being new parents & adjusting to life in Bujumbura, Burundi, after spending some time in the US for the birth. Rich continues to work as head of IRC Burundi & Rwanda, while I am a full-time mum for a while. Also, en route to the US for the delivery, we met with LALI SWART at Schiphol Airport, which was great fun! EMILY KAIGA: got married last yr & now a new mum. Her daughter was born Jul. 13, still living in Nairobi, Kenya. BINOD GURUNG met FRANCIS THIAK '93 briefly on the street a few mos back. We were going to go out for a drink before he left but we never got round to it. He was here in Hong Kong for a bit. SID-DHARTHA TULADHAR was just in Delhi, met for lunch with RAHUL, ISHAN, DEVIKA & APOORVA. MAYA RAO NAKHDJAVANI was in Delhi! I have been very busy, studying in a global MBA program. It's a long shot but JAMES DUCE could be in Sri Lanka next summer probably Aug some time. I guess I want an excuse to come up to Mussoorie, it's been a very long time & I would love to come back. I am married to my lovely wife Victoria & we have 2 amazing girls, India & Xanthe. We still live in Scotland. HELEN GODON TREMEN-HEERE still works the same as before, Jessica

now 9 & Joshua 7. Chris has a new job with VW. SANGEETA KARLE -GITE & family, husband Abhijeet, Maya (6) & Varun (4) still live in Houston TX. I keep busy with kids, school & indoor activities in the Houston summer heat & outdoor fun in our milder winters. All is well and, I am very happy. I am working in Oil & Gas in our family business. I like the work as well the flexibility. MALINI ANAND NIJAGAL is still living in San Francisco CA with husband & 2 children. I still work in Marin but now for Marin Community Clinics providing OB/GYN care to the County's uninsured women. I am hoping to attend the class's 20th yr reunion in 12! KAPIL GUPTA got transferred to Bombay earlier this yr & we (wife & 2 sons) have settled in nicely. I am planning to attend the WOSA 100 along with my elder son Karan & looking forward to our 20th reunion next yr! As for me, not much has changed. Hubby has left his job & is chilling at home with Harshan (8) & me. We will be attending WOSA 100 & am looking forward to meeting Kapil, Abhra & Maya D. We will take that opportunity to throw around some ideas for our class reunion. We hope to fix the dates soon. Please inform me of any change of contact information & try your level best to come for the reunion.—Sonia

### Class of 1995

This has been a slow news yr for the Class of 95 with a few important exceptions. PRITICA SHAH got married in India in Dec. Since then she's been commuting between LA & Shanghai, where she is helping set up a new China office for her co. She's enjoying learning Chinese & the joys of living behind the Great Firewall of China. HARBIR SINGH also was married this past yr, in Mar. MARK BRADBY & wife Vanessa welcomed daughter Vivienne Marie to the world on Aug 23. Vivienne's precocious nature was immediately evident: she was born on their living room floor. Mark continues to work as a mech engineer in Minneapolis & keeps busy taking his son Henry (1.5) on adventures. GOURI UPPAL GUPTA also was a recipient of a bundle of joy, in the form of son Milo, born May 26. Nepal's answer to Gordon Ramsay, JONNY MENDIES is expanding his Red Dingo restaurant into a boutique B&B, in addition to taking over as Food & Beverage mgr

at the Hotel Himalaya. He enjoys the challenge of running a successful business despite the difficulties caused by the recent political instability. A few mtns away, KESANG DORJEE is once more hitting the road, this time running leader workshops for Bhutanese girls & showing a documentary on the recent Bhutanese elections. Meanwhile, down in the plains, MANEESHA SARIN CHAWLA continues to do important work running Gharkamai, a portal to help women work & gain income at home. As usual, TX continues to provide the most faithful correspondents. ADITYA ANAND completed 12 yrs at Hoover's this past May & is working part time on the side at a local booking/promotions agency called Transmission Entertainment. He reports that wife Natasha is beautiful & awesome & 4 cats & 1 dog keep us busy as well. The only fly in his ointment is the failure of India's much vaunted batting line-up. SAMEER GUPTA & wife, Mitali, also live in Austin, which serves as a respite from their jetsetting lifestyle, which this yr included Lusaka, Hong Kong & Bangkok. Sameer continues to battle the lions & sharks of corporate America in his role as the Global Powertrain Product Mgr of Freescale Semiconductor, a spinoff from Motorola. Among the

strategic decisions he has to consider are China's rise in the automobile market & the correspondingly reduced importance of US markets. Sameer's latest corporate acquisitions include a little 12lb stud Maltese called Benji. Sameer sees MAHJABEEN HASAN often & new arrival to TX, ABIRAL MALLA, as well. Mahjabeen is in Dallas, where she has completed

10 yrs as a teacher & is looking forward to seeing her sister, FARHIN '06, a recent graduate of TCU, join her. To escape the TXan heat, she travelled to Bangkok & Bangladesh. The word on the grapevine is that New Yorker, PEMA NORBU, is engaged. Others in the NY area include West Coast transplant HIROKO McVEY, PATRICIA CUMMINGS, perennial student JONATHAN CLEVELAND & KIMULI KASARA. Kimuli is considering branching out from her job as a Columbia U prof to a sideline running a bar in Fort Portal, Uganda. I expect to hold a named chair at that bar. Fellow academic, PAVEL KAPINOS continues to plod along the tenure track at Carleton, while keeping track of kids, Alina & Ivan & the fortunes

of Arsenal FC. I, SAUMITRA JHA, am back at Stanford Business School after a yr off from teaching, spent mainly writing & perambulating around the World Bank in Washington, DC, where wife, Jessica, is an economist working on human developm't in South Asia. I was happy to run into KEYA BANERJEE (who continues to do amazing media design work in Bombay) last Dec. MIRA LUTGENDORF DEBS & husband, Alex, are spending the yr at Berkeley/Stanford on leave from Yale, so it is nice to see them regularly as well.—*Saumitra*
