Class of 1937

Last June, LARRY BURKHALTER visited the Cleveland Clinic because of some heart problems, and was advised that he needed a valve replacement. After two preliminary trips to Cleveland, he had the surgery on July 30. He returned to his apartment in Maple Crest, Bluffton Ohio on August 27 and is happy to report that the operation was successful, and that his extended recovery is going well.

Class of 1939

LAWRENCE TEMPLIN recently signed two book contracts, one for a book of poems mostly written in old age, and the other a memoir, sort of. The memoir does have a Woodstock chapter, but the rest of the book is digression (in alternate chapters) on ideas and themes relating to his story and containing affection with three characters: himself, Krishnaswami and Rudyard Kipling. He doesn't know when either volume will be published. He enjoyed a visit with LARRY BURKHALTER '37 recently when he moved to Bluffton. JOYCE GRAHAM THOMASSON writes from a manor where she was placed after she broke her hip. She is busy with Youth for Christ, and Teen Challenge (a recovery program for young men.) As with many of us, her children are getting old enough to retire. She boasts of 9 grandchildren who have all gone on to get higher degrees, #9 just started college this year. And then there are 5 great-grandchildren!! She has led a fruitful, religion-centered life. JOHN MANRY writes about a once in a century flood Calgary suffered. His main interest has been in following the progress of daughter, Kathryn and her husband, Mark as they develop their lovely property on Quandra Island, off the west coast of British Columbia. John sends the following ode :

Ode to Woodstock

Since nineteen-hundred and thirty nine
Our ranks have dwindled over time
The world has changed, and so have we,
But WOODSTOCK stays on in our memory!

Our legs may not be able to cope
With paths, as found on a Landour slope.
Our hair may be white, or perhaps gone
But Memories of dear WOODSTOCK linger on!

LORITA SHULL FISHER at 91 is still active in many community organizations. She is on two boards, and stays very involved in them. Daughter Kathy lives in the guest apartment downstairs, and is a great companion and help,

and so is Koda, the golden retriever. Life without my dear husband of 66 years is a little harder to take, but I keep healthy and busy, and Kathy sees to it that I get out on trips. We took the Amtrak train across the northern route, from Portland to Chicago, visited son in Ann Arbor, Michigan, and then returned by the southern California Zephyr. It was great! On each trip we had tiny private compartments.—Lorita

Class of 1942

BETTY STUNTZ ALLEN has started an electronic round-robin with her classmates. Excerpted below are news from Chapters 1 and 2 of the running document. BETTY keeps very busy and healthy with many activities at the retirement home where she lives, bocce outdoors, scrabble, singing, writing group, plus the Resident Council, Missions Committee, Welcome Committee. STAN and BEVERLY AMSTUTZ BRUSH have moved to main campus of Medford Leas, where they no longer have to drive and live in a two bedroom unit, close to Miriam Brush, the widow of brother JOHN '37. BILL and DOROTHY VAUGH WHITCOMB are keeping busy at their retirement home. Bill is well, has mobility problems with numb feet and hands, but continues to go daily to the workshop where he is now making rocking horses for the families of other residents, while Dorothy has been involved her church, with a new pastor, all kinds of new initiatives, new Constitution and By Laws and committees. KEN ROCKY is in touch from his home in Menomonee Falls, Wisconsin. JOHN LOEHLIN, although retired, still visits his office and computer at the university in Austin Texas, three times a week. He and Marj have done a fair amount of travelling, to Illinois, Utah, Marseilles, France, Palo Alto, California,

Plus a couple of books of (mostly) light verse: *Verses of a Young Man*, written in his 20s, and *Verses from Later Years*, mostly Christmas letters, anniversaries, and so forth, including the 60th class reunion. Ken and VANGIE BISHOP LINN have moved into assisted living, having to downsize in the process. TONY STEELE still has a strong handwriting. He lives in Leicester, UK, with wife Betty, in the same house since 1961. They will soon be celebrating their Diamond anniversary. They remember fondly their visit to the US in 1992, including the WOSA gathering in Colorado where they saw many friends. DAVID '41 and ISOBEL SCOTT LEWIS live in Kingston, Ontario, a medium sized city easy to navigate without having to drive. Jane and HAROLD BROCK in Walnut Creek California are looking forward to regaining their free hotel accommodations in Hawaii, now that their youngest daughter and husband have moved back, after a one year stay on the mainland. Jane does the driving up and down the coast, visiting family. RUTH GILSON NYCUM is also in assisted living, but can drive to her meetings with Red Hat Society and Board of the Emeriti of Cal State Fullerton, where she was a librarian for 17 years. She is also President of the Resident Council which she helped set up 6 years ago and all the documents are still on her computer. Cheryl and DICK JONNISON have been staying pretty close to home in Warrenton, West Virginia. They have adopted a young German shepherd dog, and are endeavoring to reach an accommodation, in both directions. Cheryl continues to teach and Dick takes a class or two a semester at the university. Hazel and DOUG STEWART moved to a retirement village near Boise, Idaho, where they are close to the families of a daughter and a granddaughter. GERRY WILLIAMS has Parkinson's, and has moved to a nursing home near his daughters. He still enjoys hearing from others. DICK THOMPSON broke his left hip and fractured his left wrist in a fall last summer. He is surrounded with love and care by wife Jenny, his four sons and daughter who lives near-by. —Betty

Class of 1943

Our class lost three members in the past twelve months: MARIAN LOEHLIN DAVIES & DICK MOOMAW last December followed by BERT BENADE in August this year. DESMOND HOLLINGBERY lost wife Marj last spring; still going for long walks, but more slowly! Jeanne & HUGH MUMBY celebrated 63rd wedding anniversary on Hawaii's Big Island, were awarded garlands for being the oldest married couple at Kona Coast Resort. While there, they did the volcano area along with some snorkeling including Kealakekua Bay and took

a Kamau Co. catamaran sunset sail; a former athlete treated him to a Zip-line experience (near Hilo). The line has seven segments & crosses two waterfalls. The OLD Woodstocker made it OK. ELLEN ALTER (S) no longer undertakes long distance travel as mobility is limited by arthritis and scoliosis, but keeps up local activities with a lively group of (mostly) church friends; grateful for the phone system, Skype and Email, all of which keep her very much in touch with scattered family in India and Australia. They also manage an amazing amount of visiting with her in Wooster, most recently last July for her 87th birthday. Last trip to India was in October, 2012, when all three sons & their wives were there at Oakville. Took BOB ALTERS's ashes, and arranged the burial in their family plot in the Landour Cemetery, overlooking the eternal snows. Bittersweet but very satisfying. PAUL COOLE is waiting for amputation above the knee, probably no prostheses, on Nov 26 at OPRMC. Pat has been changing dressings above ugly wound daily, with lots of pain pills. PAUL COOLE & DESMOND HOLLINGBERY have joined the round robin of BETTY SMILEY BREMER, ALYCE BANKER HEYBOER and MARY STEWART CUMMINGS. Round Robin used to have 7 girls from our class, now down to 3. BETTY had a fall at home in August & did a stint in a rehab unit but was able to move home. She and Joe are still in an Independent Living Apartment at Meramec Bluffs retirement community in St. Louis, Missouri. She always looks forward to news from her Woodstock classmates & loves to regale her grandchildren with tales of her days spent in school with all her classmates. ALYCE BANKER HEYBOER continues with her book group, church activities & following her beloved Detroit Tigers. TOM & MARY STEWART CUMMINGS joined MARTIN AHRENS & Pat & PAUL COOLE at the Woodstock reunion celebration in Maryville, TN in July. MARTIN, who has severe macular degeneration flew by himself from Edinburgh, Scotland, to Washington to visit his sister Fredericka & on to Maryville where we all were housed in the same building; Pat & PAUL on his scooter, MARTIN & his guides, MARY & TOM. Once MARTIN had been shown the path to various meeting sites, he was able to navigate on his own. MARTIN spoke for the class, our 70th anniversary, & oldest class there. Anyone interested in visiting us, MARY & TOM CUMMINGS, here in Florida? Laura and STEVE ROOT went to a Woodstock Club meeting in Portland Oregon. Putting on name tag, Class of 43, then looked at other older folks to see if any he might remember. NO! Classes of 73 or 84 did not ring any bells- although some remember our son GARY and wife MELITA who were on the staff in the 80s and into the early 90s. Their

eldest son TIM '99 with family works setting up computer classes in Kabul and the second son Paul with family is in Brazil as pilot for Wycliffe. Their daughter Laura just presented them with their 14th great grandchild, James. Gary is now in the Philippines teaching street kids woodworking skills.—Mary & Tom

Class of 1944

LAUREL LOADER DOWNWARD wrote that her oldest son, doctoring for multiple myeloma, is better than expected with a stem cell transplant. Summer on the Isle of Man came with more sunshine. Laurel, herself, though dealing with arthritis "is fine." She's now visiting a daughter in England. 2013 was a memorable year for DORIS COLVIN BELL. With son Don doing the driving, visits were made to sister LUCILE '38, sister ELLEN '35, and sister JOYCE '41 member but graduated in the States because of World War Two). Sadly, Joyce succumbed to pneumonia just a few weeks after our visit. We flew back to Dallas, Texas for the burial. Sister RUTH '36 died two years ago from Alzheimer's. Fortunately, I continue to have good health, am active at Sixth Presbyterian Church here in Pittsburgh, and enjoy visits with my four children and six grand-children, and tending the small front garden which even strangers stop to tell me, "it's lovely!" MIKE JAMES passed away January 8, 2013 after attacks of asbestosis picked up when working for a building company; he fought kidney failure, heart irregularities and additional symptoms. Pam keeps in touch and shared the beautiful service recorded by family members. In the Spring she had a bunion removed but recovery was extended by an infection; she's now walking and driving and travelling again. JACQUETH JAMES RILEY, '46, MIKE's sister came to help the family both when MIKE was ill and then as Pam recuperated. CECILY MARTIN BOOTH also wrote from Australia where she's in Independent Living in South Sydney where one son can join her for lunch four days each work week. She enjoys a singing group, the Harmonisers, a weekly home Bible Study group, her church and an exercise class. She commented re migrants; 11,000 waiting in Indonesia to move by boat to Australia. FRED OSGOOD is the traveler this year with his new partner, Eva. In Jan. and Feb. they had 4 weeks in India with standard visits to the Taj. Jaipur, Varanasi, and more. Then Mt Hermon in Darjeeling, his parents' mission field, and finally Woodstock. This summer they visited her childhood home in Sweden including a concert by Earth, Wind, and Fire. JOAN MERRILL MACHATA was the next traveler as she went to Burma with friends FRED '49 & Mary DOWNS and JANE DOWNS WALLBROWN '52. They joined other American Baptists in celebrating 250

years since missionaries first went to Burma. Then she again spent two months in Florida. Her summer cottage along a beautiful lake helps her reunite with her brothers and her family. ALICE ALTER WATKINS was able to visit with her sister and family and Phil's family in Denver, Colorado; it was very distressing for her to see the Colorado flood destruction, including Estes Park. Since she lives along the California coast, she and her brother walk the beach weekly. She continues with classes and committees and still manages to work on her family's history book. BRUCE AMSTUTZ shared lunch with Principal Jonathan Long, Jane Cummings, and others in Boston. He's travelled twice to Europe enjoying hotel-barging in Burgundy, ascending 3 mountains in Switzerland, and small-ship cruises in Scotland. Unfortunately Nan no longer travels though both have many community activities. In Atlanta DOTTIE KOENIG POWERS also lunched with Dr. Long and Jane; she and Erl stayed home this year, hosting all their families, are active in their church senior group, and two garden clubs. She reported that FRAN BRUSH SCHILLINGER says Fred is now in Assisted Living; that FRAN has an available Dial-A-Ride program that makes visiting easier. FRAN's knee replacement op was so successful that she flew from Seattle to visit her brother STAN & BEV BRUSH '42 in New Jersey. LOIS LYON NEUMANN also lunched with Dr. Long and Jane, this time in New York; our classmates speak highly of Dr. Long's experience and vision for Woodstock. LOIS is on her church's pastoral care team and a Eucharistic visitor, visiting folks in hospital or nursing home. She also spent much time on their pastoral search committee, now successfully concluded. Merle says MARJ HELFERS BAER will be going into Healthcare permanently. He also has been doctoring but maintains their apartment. Jim and I, still pretty active, enjoyed our cabin in Minnesota this summer, continue helping in the IHN/Family Promise program for homeless families, visited my brother TOM and MARY CUMMINGS '43 in Florida, also briefly DOTTIE and Erl, and then family along the way. —Elizabeth

Class of 1945

Sadly we have lost 3 classmates: MARK JOHNSON in March, 2012 and WENDELL "BILL" DUFF in January, 2013 and RUTH WILKINSON PHILLIMORE in March, 2013. BILL had Parkinson's Disease for several years. I talked to BOB WILKINSON '51 who said that brother HAROLD '49 passed away one week before RUTH, who died from complications of pneumonia. Our sympathies go out to their families. They will be missed. RUTH STEWART retired from the CIA in July '13. She still lives in Washington DC, does not

have a car. She has kept healthy other than falling and breaking her arm, which is better now. Her brother DOUGLAS '42 lives in a retirement place in Boise, Idaho. GORDON YOUNG has published 5 books, all available at Amazon.com. His main interests these days are his family and birding. His daughter, Debbie Young Chase just edited and compiled the writings of Gordon's father "To The Mountain Top". Gordon's father was a missionary in China and then in Burma, a true pioneer. ROBERT HARRISON has been located. He was at Woodstock during the years 1939-41 and remembers Miss Sharp very well! His father worked for Caltex and Robert was born in Korea, but lived in China till 1937. They left India in early 1942 and Bob has lived in the U.S. ever since. He has been married twice, has three sons and three grandchildren. VIVIAN NICHOL NORDEN is not traveling much these days, has sold her flat in England. She spends a lot of time with her daughter in Nova Scotia. MARIE TEMPEST EYRE is legally blind but that doesn't hold her down! She made a trip to Spain this year and spent last Christmas with Vivian in Washington, DC and then the rest of the winter in Florida. She is making plans to go to India in the fall. RAJ BERY and Marjorie were the only '45ers to attend WOSA this year. They are keeping healthy, attend Curry Club gatherings and had dinner with VIVIAN and MARIE. DICK BOLLINGER has quit performing with his violin because of a problem finger. ANNA MAE (S), however, continues to play the piano at different gatherings. They travel very little but were in California in October to visit their daughter. JOE DUERKSON still plays the viola with the Medical Arts Symphony and sings in the church choir. He is also taking care of his wife and her sister living with them. He says he is chief cook and bottle washer these days. One of his weekly pleasures is to have lunch every Tuesday with other "old" doctors. TOM HAZLETT reports that they do not go to Florida for the winter anymore and don't travel much. They are looking forward to a family reunion in October in Michigan DON RICKARD and his wife celebrated their 60th wedding anniversary. They have six children and six grandchildren with a great-grand baby on the way. They do not travel now because Elaine suffers from severe vertigo. NORMAN ROADARMEL is celebrating his 6th anniversary with Doreen, his third wife. He has six children and 13 grandkids, and Doreen has two children and five grandkids. They had a family reunion in Oceanville. Two of his grandkids are getting married and NORM will perform the ceremonies. His daughter JUNE '70 is in Shanghai, China and daughter BETH '71 has moved back from Thailand and works in Seattle. MARY LOU LOUCH SAHLSTROM lives in Waseca, Minnesota. She belongs to

several clubs and activities at her church. Her son and daughter live nearby and she has two grandsons, one who has just graduated from Mankato State. ALBERT BJERKESTRAND got a pacemaker this year to control his atrial fibrillation but is healthy otherwise. His two sons and granddaughter live nearby and are good help. He helped with the 110th anniversary celebration of his church, and drove to Montana to his first pastorate which is celebrating its 60th year. He is still active in Rotary Club. STEWART LEEDER recently visited his youngest daughter and ANN LEEDER PICKETT '47 in Black Mountain. Says all of his grandkids are married except one, and he has seven great-grandkids and one on the way. He has a bucket list and so far has gone on a hot-air balloon ride in Arizona, flown in a bi-plane and taken a rafting trip. He plans to take a river cruise in Europe. ROBERT WILLIAMS has been busy adding a downstairs bathroom and a quilting room for Sandy. He does all the work himself, but finds he is limited to working 2-3 hours a day and Sandy no longer is able to help him. He has slowed down on his political activities and has turned over much of the work to younger people. They still enjoy living on the big island of Hawaii and the only drawback is it's too far from their family. I finally found WALTER MAHLER who moved a year ago to Highland Beach, Florida. His son and family (two grandsons) live nearby in Boca Raton and he is with them often. He says he is a beach bum now and enjoying it immensely. He thought he would return to Connecticut part time, but now prefers to stay in Florida and is happy he moved. He is writing a book on physics, mathematics, language and poems. Says he is in good health and exercises regularly. RUTH NAVE LEIBBRAND enjoys being Class Rep. because she gets to communicate with classmates every year. She still struggles with constant back pain and arthritis, but tries to be as active as possible. She belongs to several clubs, paints with watercolors, makes jewelry, is writing her memoirs and is Secretary for the Council of the Retirement Home where she lives. Travel is no longer on her "bucket list"!—*Ruth*

Class of 1946

DOTTIE LONG REID writes that there has been very little news about her and Joe except for news of sickness, surgery and things that go bump in the night. They got a Sib Chihuahua from the shelter and named her Millie, a dumb thing to do maybe but she gets her out of the house 3 times a day and we move as fast as my old legs will carry me. FAITH LUBBERS BRIGHT & Dick are enjoying living with other Wycliffe missionaries in Dallas. Dick is still working on helps for translators to be used around the world. They now have a 4th great-

grand - a boy to go with 3 girls. We extend our sympathies to them on the death of her sister ALTYE '48 at Easter. She was also a Woodstocker & was a year behind Faith. Sadly one of their granddaughters has terminal cancer. Faith writes: These events in our lives make us long even more to be at home with Jesus our Savior. Paul & PEGGY ROSS VANHORN never lack for things to do at Meadow Lakes their Continuing Care Retirement Community. They've had talks on Roosevelt, Stalin, and Churchill, musical events, lectures on a variety of subjects. Peggy had surgery on both eyelids which was very successful. They had 3 out of 4 families for Christmas last year and other families since and plan to visit in Virginia for Thanksgiving and DC for Christmas. IRENE DUNN still hikes with her group. One of the most interesting was to the now National Park at Alcatraz Island where they had a tour of the gardens; very historic, officers' wives demanded gardens out there on The Rock. She toured old prison cell blocks and heard stories of escape. She is still singing and taking advantage of the local Senior Center. A note of interest is that the new Eastern span of the San Francisco Bay Bridge has opened; the older one was damaged by the Loma Prieta earthquake. Margaret & ARTHUR MERRILL report no serious health or physical problems. Last spring they went to Green Valley, Arizona, saw several friends and son Bob came from California. Margaret got to paint lovely desert scenes and flowers. Art has finished his 4th year as secretary for the Wabana Chain of Lakes Assoc. He is also 1 of the secretaries for his Wooster class. This fall Margaret and daughter Sarah went to Ghost Ranch in New Mexico for painting classes and enjoyed the high desert scenery, while Art enjoyed the solitude at home and the various bridge games. Our deepest sympathy to COLETTE (Coco) IMTIAZ-XAILLE OWEN on the death of her husband Wynne in August. after a lengthy illness; his remains were donated to science as per his request. JUNE BAUR DEWSBERRY wrote that she & Art had a visit with them in June when they had a rice & curry dinner at a near-by restaurant. They were in Toronto for a granddaughter's graduation from University. Wayne was very frail but Coco was remarkable. It has been a very difficult time for her. On October 13, JUNE & Art celebrated their 60th wedding anniversary. They are fine - still busy, active, exercising regularly and enjoying life in general. They were on a cruise on the Danube in December from Budapest to Nuremberg. Word from WAYNE WARDWELL was that they had to put their son Paul in a nursing home next door to their apartment. He has severe Parkinson's and has difficulty eating and talking. Wayne and

Naomi are both seeing several specialists to keep them going - but so far so good. JEAN ALLISON VAN HORNE says life has settled into a slow and easy routine. Local trips with the church senior group are fun. Granddaughter Sara coaches volleyball at a local high school. Their tournament was Dig Pink for breast cancer. Jean's doing a knitting project for hospitals, convalescent homes or whoever needs a scarf, shawl, baby blanket or lap robe. She's trying to get a group started in her church. Looking forward to a trip to Arizona with her daughter, a nice change. JANE WALLACE ANDERSON & Jim hitched a sheep stock trailer to their motor home and took them to some folks in South Carolina. Many of the views on the Blue Ridge Parkway reminded Jane of Landour. Their daughter Beth is retired after 38 years of teaching and has been a big help for doctor visits, for Jane who had cataract surgeries that have really helped her vision. Several family members went to son Scott's to celebrate his birthday. Jim is still keeping busy with his farming and the hospital garden. One of their grandsons and his girlfriend are in China where they are going to teach English. However the fire department hasn't OK'd the school until a bribe is paid, which the head of the school has refused to pay. Even though it's a city of 4 million they haven't seen any other white people so get more attention than they would like. Our sympathy to the family of DR. BUFORD HAMILTON on his death. His sister MABEL MCGILL '41 survives. I, LYNN ROADARMEL KOWALSKE am happy to have found a bridge club which meets every week. Her travels have been to Grandparents' Day in Dallas, family in Cleveland, & Savannah. Every year at Christmas the whole family meets at son Kenn & Pattie's on a lake in Auburndale, about 2 hours away. Her 3rd great-grand, a girl, was born in September. Now they have 2 girls & 2 boys. Once a month there's a support group lunch and a breakfast with Bill's high school class - then there's exercising and lots of reading. ELEANOR MILLER INFORZATO is a very accomplished artist. She sent me a pencil sketch of Katherine Hepburn & Peter O'Toole that is of professional quality. She is on the activity committee and is in charge of art exhibits & keeps with Art 101 lessons. She wrote a bio which reminded her of all the truly adventurous life she has had. She is submitting some paintings to the Art Alliance in Oxford. One is of the Himalayas which would recall the beauty we shared all these years- the distant snows & the mists in the valley especially during the monsoons. Our sincere sympathy goes out to HELEN YOUNG SUTER - her 56 year old son died from a sudden heart attack, leaving a wife & 2 children (21 & 22). He was the same age as

her daughter who passed away 2 years before. She is thankful for a daughter who lives in San Francisco. Helen is dependent on a walker and has home care 20 hours a week but says her general health is good.—*Lynn*

Class of 1947

KAVI SINGH: I usually manage to get up the hill to Landour every year; and always, Ameeta & Steve Alter are loving (there is no other word for the way they treat me) and I stay at Oakville. It's still a great experience and I come back rejuvenated. I'll go up in November for the Mussoorie Writers session. When at Oakville and down at the school, my mind goes running back to the time when we were all there together - and younger. This year has been smooth for us, except for the very sad news of Gudh Henderson leaving us. Think of him often, and I suppose this will continue. Both of us are doing well Devika is still working with her beloved Mobile Creches. They are now well known as an honest and hard working NGO. Picking up international awards and being recognized by our government as the people to-go-to when you want anything on the 0-6 child. And I carry on with my teaching at Mirambika School. It's nearly 11 years now and I'm still pushing my love for the English language and history of the world with my 40 odd bachhas. Music and golf take up what little time is left. My cup runneth over! **AL BAUMAN:** I am on a pantry board. The Pantry served 26,000+ people last year. This year the number is greater. At the YWCA FAMILY CENTER along with the North Broadway United Methodist Church we serve dinner to between 150 and over 200 people every second Tuesday of the month. The people are teachers and other middle class folk who for one reason or another have lost their jobs. **LULU BOYER** We've been

retired – me for thirteen years, David for less, and are enjoying it, although not accomplishing as much as we would wish. We moved to a retirement community about three years ago called Fleet Landing, (a half-mile off the beach), where they do the cooking, cleaning, and a lot of the entertaining, fitness classes, etc. A very supportive community. We have a guest room and would welcome Woodstock visitors. Henk and Georgia Parson have been here twice, I think, staying at an oceanfront RV park. **HENK & GEORGIA PARSONS:** We retired from volunteering July 2012, now travelling the USA, year round, in our 36ft motor home. We have been fortunate that in all our travels we were able to attend a Woodstock reunion in Harrisonburg, Virginia as well as visit with a number of our 1947 class mates: Lionel Lee, Bob Supplee, Barbara Bond, Jim White, Ann Leeder, Chuck Hazlett, Lulu Wagman Hal Closson.

Class of 1949

NANCY ALDRICH INMAN went on a Panama cruise last spring with her sister and husband. Nancy teaches Self Discovery classes. Bird watching she saw a pair of burrowing owls. She is going to an International Spiritual Conference. **HELEN BANKER SYSWERDA** and Ivan remain active in their church, spend winters in Florida. **BETTY BAUMAN SHELLY** attended a grad daughter's wedding, two college graduations and a high school graduation. Betty went on the class cruise. **HARVELLA BAUMAN STUTZMAN** is active in the church quilting group. Harvella was also on the cruise. **DIANA BOND HOLTSHOUSER** is part of a volunteer group that sings in Nursing Homes. She plays in the church hand bell group. In June she attended a graduation and Eagle Scout ceremony of a grandson in Raleigh,

North Carolina. The cruise was a high light. **RUTH BROCK GILCHRIST** has moved to a retirement community in Marble Falls, Texas. **JOE and JOAN CHACKO** arranged our class cruise then were unable to join us because they lost/misplaced their passports. They keep busy with community activities and helping their children and grandchildren. **FRED and MARY DOWNS** had a busy year entertaining family and friends. They went on a Panama cruise. In July they were in the Adirondacks and in August they were in Virginia and October was the class cruise. In December they will travel to Myanmar for the Baptist 200th anniversary celebration of their first missionaries. Daughter Susan comes home twice a year from Abu Dhabi and the family will be together for Christmas. **ROBERT and NORMA JEAN ERNY** had an Erny-Shultz reunion in Tennessee with 32 attending including 7 great grandchildren. Class of 1950

DOREEN FRANCES BARLOW still lives in Western Australia and enjoys her life there. She still drives, visits friends of old and shares meals with her family. The plentiful rain WA has received this spring has brought hopes of a good harvest and water restrictions that are bearable. HAROLD BERGSMAN has reached the good old age of 81. This year he visited his ex, RUSTY FEIERABEND and their 3 children, numerous grandchildren, and 2 great grandchildren in Michigan. His latest book *Bonded*, is set in India. Another book came out before Christmas. DAVID BJERKESTRAND and LOIS '48 live in Idaho where they like to go for walks and are keen gardeners. In August they had an accident and their car was a write-off. Fortunately they were not injured though they do not say whether they still drive. David used to be in PAUL VON TUCHER's class but went down a year when his parents went on furlough. LILI VON TUCHER BOWES lives in Perth, Western Australia, has retired from piano teaching though she still teaches her grandson Michael. She has 3 children, 2 in Australia and one in Juneau, Alaska where she runs a self-catering apartment complex/dining-room and is always looking for customers! Lili sings in a choir and they gave concert in November. RAJAN CHETSINGH who along with Lili is one of only 6 original members of the Class of 50. He has retired from his job teaching college students literature in London and has become an Overseas Citizen of India which entitles him to visa-free entry into India. There is also a Quaker connection between Rajan and Lili. Rajan had a stroke in July but is recovering well. LOIS DUERKSEN DECKERT and husband MARION (S) moved to an apartment in a retirement village in late July. Their home and extensive block sold quickly. The buyer

wants Marion to maintain the orchard and garden which keeps him busy and provides the family with fresh produce. Lois finds her diminished mobility makes the apartment the perfect place to live with everything handicap accessible. DAVID GRIFFITHS moved with wife Joyce to Greenwood, South Carolina, in 2006 to a continuing care Retirement Centre. Here David can give full rein to his considerable musical talents belonging to several choirs and a band and attending concerts at the University of Greenwood and in Greenwood itself. This summer he and Joyce motored to Saratoga Springs, visiting numerous family members on the way. They intend to catch up with family again at Thanksgiving. RICHARD MENZEL lives in Vermillion, South Dakota, which he finds very boring. He spent 4 years in the early 90's living as a Sannyasin in the state and national parks but was driven out by the plentiful seed ticks! These days he compiles the odd mathematics paper which often gets lost in the mail! MIDGE BOND NAGUS writes that she has sold her house and has moved into a condominium. LYNN WATSON VINING celebrated 60 years of marriage with husband Bob this year at their home in Canada. Their 3 sons and families together with 8 grandchildren came for the event. It made her feel quite old! They've also been busy doing necessary repairs to their home. They do volunteering at their local theatre company and play golf. Gardening and water colour painting are also on the to do list – phew! As well they do Tai chi. Lyn and her husband live in Canada. LI-CHUN CHU WU is busy assisting her husband in a non-profit US – China Green Energy enterprise. They visited China for the 2nd time this year. She was concerned that she wouldn't tolerate the extreme heat and humidity in China and hoped the hotels there would be air conditioned. They were in China for 2 months. One of their daughters suffered a critical medical condition recently when she lost the use of her left arm but fortunately, with good therapy she gradually recovered movement.—*Lili*

Class of 1951

Most of us in the Class of 51 are still active and enjoying life. Unfortunately, we lost two of our members this year. BILL GILSON and DAPHNE WADE HOUGHAM passed into eternity after long struggles with illness. We mourn with their families. Only three of us were in Maryville TN in July to represent our class: CHARLENE CHITAMBAR CONNELL, GORDON HOSTETLER & myself. It was a great weekend in spite of a monsoon downpour on Saturday evening and most of Sunday. CHARLENE was a big part of the reunion, doing her superb Mrs. Appleby skit and leading school songs on Saturday evening, & rendering Memories of School during talent night. Those of us who visited Woodstock in 2001 remember that song well when we performed it for the students in Parker Hall. There will never be enough thanks to give to TERRY CONNELL '58 for his hours of work on the inspiring In Memoriam pictorial he made in honor of the deceased for the Sunday service. I loved working with the local committee & still miss our gatherings. That's my big accomplishment of the year. JIM & Allie LOEHLIN continue to sing with the Newton Choral Society, church choir, and the summer Berkshire Choral Festival (which kept them away from TN in July). They, along with the SULLIVANS, are contemplating a move to a retirement home, but they still actively pursue their passions: growing crystals in a lab for JIM and Allie's pottery. Sadly, JIM lost two sisters this year: MARGARET '56 & MARIAN '43. JOHN MORGAN sings in the Yateley Choral Society & each year takes 12 friends on a week's sailing trip on the Thames Barge, Pudge. He says providing all the food & drink for 5 days is getting to be a bit of a chore but they had a good sail. WARREN CRAIN celebrated his birthday in Kyrgyzstan where he teaches English. During a Peace Corp training session, they were assured that the country is safe but politically unstable. The high point that day was a call from his friends in Khajhuraho. KYAW WIN & Rirt were in Burma & Indonesia Jan-Mar teaching English, helping in orphanages, surveying conditions since the tsunami in Aceh. WIN traced steps of his one-time teacher, anthropologist Cora DuBois in the tribal village where she lived. It was extremely hot and humid during their stay. When they got back to the US, WIN developed pneumonia and then Rocky Mountain fever, in the hospital for 9 days plus 6-weeks recuperation at home. Colorado floods were bad, but they were fine. Besides the WS gathering, the HOSTETLERS also attended their Hochstetler Family gathering in Lewistown PA where 300 assembled, then proceeded to NC for Phyllis's family reunion

Warren Crain '51 and student in Kyrgyzstan

of about 40. They attend lots of lectures, movies, and volunteer with ESL classes and the local library. ALAN JACKSON sent a list of the 17 big mountains he has climbed since 1955, including Kilimanjaro, Aconcagua, McKinley, & Ararat, scaling some more than once, some solo, and some with others. Now he hikes up the ones in Montana. LOUISE GAULT JOY loves country life in Heathcote where she has just finished a history of their church. She keeps busy with volunteer work, especially organizing events at Queen's College, Univ of Melbourne, the model her father took to CMC Vellore when he was the first Dean of Men in 1947. Dr Achamma Chandy from CMC visited Australia in August with her husband Prof Sunil Chandy. LOUISE'S son David cannot use arms or legs due to a bad accident but is in a good rehab center, recently celebrating his 40th birthday. After several attempts she also managed to track down MARINA BEALE ROBERTS who seems to be doing fine. MARGARET WINFIELD SULLIVAN has written several blogs for *The Huffington Post* this year amid travels and other writings assignments. ASHOKE CHATTERJEE journeyed to Kamataka to look at rural schools where he was thoroughly impressed with the teachers and students during monsoon rains. He also endured a steaming hot summer while their apartment was being renovated. He also spent many, many hours going back through past QUADS, which led him to write a long essay on how he envisions what makes Woodstock and its alumni what it is, past, present, & future. He reported that ROSANNA LORENZONI HAMEL had gone on a trip to Berlin this past summer but was glad to get back home. Bob & I spoke to KEN BONHAM twice recently, & he seems to be doing well. TONY and Teddy PARKER have been fixing up her place in Californai for sale,

so they will live permanently in Henderson Nevada from now on. They had lunch with the CHANDS recently, and they often get with KEN DYE for dinner. Pauline and NIRMAL CHAND have both published in the India Currents magazine: 2 art from Pauline and 1 photo from NIRM. NIRM is active in his camera club & plans to submit more photos. Their house is the gathering place for all the family. AL BARROWS still deeply feels the loss of Ginny, but he gets around on a bicycle and continues his ministry in every way he can. For PRNOTI BAKSHI SINHA promoting the eye hospital takes up much of her time. MARGARET CLARK WARD & Jim went to Canada to see family this summer. I spoke with MARY CHACKO RUSSELL by phone; her work with the local theatre consumes most of her time. She not only acts, sings, dances, in shows, but she also makes costumes. Right now she is in Fiddler on the Roof and an October Fest at her retirement home. She joined the WS 49 Class cruise & manages to see her kids off & on: Liz a TV News Anchor in Boston, JD a policeman, Galen a minister, and Stew a United pilot in Texas. BEA ANDERSON SWEDIEN and Bruce just returned from a trip to Dubai with a bunch of musicians; BEA is writing another book. Hope we have a more numerous turnout for the next Friends of Woodstock Annual Meeting (known to us as WOSA/NA) in Baltimore next July. Please do try to come. We will be celebrating 63 years since graduation! Can you believe it? As ever, —Judie

Class of 1952

JOAN BERGSMA MANLEY reads the weekly class letters with great interest. She is somewhat frail and doesn't get around much. She's very content being in her home with a view of SF Bay, reading her books - she's an avid reader - and enjoying daily talks and bi-weekly visits with her daughter and granddaughter with her husband David. DARLENE BURROWS READ and John have been married nearly one and a half years. After singing with the Sweet Adelines ensemble for 35 years, she had to drop out 3 years ago as she was getting hoarse from sneezing and coughing a lot. It was probably due to some of the heart medicine that she was taking. Anyhow, this year they are having the international competition in Hawaii so John and I are going. I have a cousin who has lived there for most of his adult life. He is a physician who married a local girl and they have the prettiest twin girls!! John and I have taken a couple of trips to Branson and thoroughly enjoyed it, too! TZ CHU retired for good a year ago after a successful turn-around assignment and is keeping busy fundraising for my

Parul and Sheridan, son of Janie Wallbrown '52 two alma maters, helping other educational institutions and grand parenting with Irmgard. Serving as class secretary for 19 years has been a special privilege that keeps him in touch with classmates, fellow class secretaries, Woodstock, and India. Most of the final quarter of 2013 was preoccupied by treatment for esophageal cancer and waiting to learn outcome of the treatment. MARY CHU YAO has finally decided to retire although teaching has always been her passion. It took a year to assess the pros/cons of retirement, with the pros out-weighting the cons. Now she can do the things she wanted to do, like going to Taiwan to reconnect with old friends and taking care of personal matters while she is still able. BARBARA CLARK and Brian have welcomed their first great grandchild, Rafael Aquilar, born in Iqaluit in September. They are following with great interest their son-in-law Chris's blog as he and daughter Lynn work their way by boat from Toronto to Chicago and now to the Mississippi, for his sabbatical year, an eight-month exploration of

Peggy '52 and John Devine

rivers and coastal waterways. They are grateful for their excellent health, because they are caregivers to a very ill son. CAROL DOUGLAS LAMBDIN was misdiagnosed with a possible stroke, but after a year, her neurologist and surgeon concluded that she had three twisted nerves at the C2.3.4.5 area of her neck. She had surgery a year ago and has since regained the use of her legs but has lost sight of the right eye. Although left handed, she uses her right for the stronger movements, such as slicing and moving computer mouse. Of course she is quite frustrated. ED ERNY very unexpectedly passed away Saturday evening October 19, about 11 p.m. He was not sick, nor did he have any complaints. He just slumped over and was gone. This, of course, has been quite a shock for wife Rachel, the family and all his friends since he had no seemingly previous heart issue. The memorial service was Friday morning at his nephew's church on the south side of Indianapolis. It was a wonderful tribute to his life and faithfulness of service to the Lord Jesus. PEGGY EWING DEVINE and John had moved to Pahrump, Nevada (45 miles west of Las Vegas). Unfortunately John became very ill shortly after the move and passed away in July 2013. She is planning to remain in Pahrump, a sprawling desert town with nice neighbors. DITA KYASHAP HOLLINS and Tony had a wonderful month in India where they went for a family wedding in February. They had a lazy five weeks in Collioure in the south of France where daughter Sue and husband Tim joined them for the final week and had a week with their other daughter Katie, husband Ludo and grandchildren, Louis (16) and Clara (12), when they came from France for a week at a Center Parcs holiday village in October. BRUCE MERRILL and Kay are very, very happy that granddaughter, Ellen, graduated Univ of Florida in Gainesville in December and will be working in New Zealand as an au pair for the next year. Their youngest son, Keith, had a wonderful time touring NZ and Australia last winter. MARGUERITE SCHERLING SCHWEITZER and Jerry had a family reunion in June to celebrate their 55th Anniversary and also Jerry's 80th birthday. Some of the kids stayed awhile after the celebration. Most of them live far away and they don't get to see them too often especially now that they aren't driving as much. After her successful aortic valve replacement surgery JOSIE THOBURN HERNDON is now again line dancing at the Senior Center 4 times weekly. It's quite a workout and she is doing well. Two granddaughters, (12 & 15), and their mom, Dawn moved to the Portland, Oregon area and now live 3 doors down from the mom's twin sister, Doris. Doris & her

husband, Jim, have a son 13 so they have a nice family group to visit. They miss them but are happy for Dawn who got a good job there! Josie and Dale now have only one local granddaughter to spoil. Andrea, aged 13, attends a college-prep charter school and has a 4-point average. LIBBY THOBURN SHEATHER and husband Harry are living in a 55 and over community in Hellertown PA. Harry arranges a monthly luncheon dine around at various local restaurants and Libby is chairman of the Grounds Committee. She also conducts a small chorus of residents who put on a Christmas program each year. Despite a few health issues they are basically healthy. DAVID SMITH and Elouise invest time with children, grandchildren and great grandchildren and worry about them all the time as well. They have two grandchildren and one great grandchild in Colorado Springs who got through last year's fires and flood without issues and another grandson in Ft Collins who was fortunate not to get flooded out. His college shut down for awhile so he spent his days helping in the cleanup. They are still holding out with 14 grands and 6 greats. The most interesting thing David has done in days is go to a catfish fry - he does like fish! DAVID and Corinne SCOTT's lives included a delightful trip to Monte Verde, Costa Rica to visit son Nathan and family who spent the year in this fascinating country, whose cloud forests were initially preserved by a group of Friends (Quakers) protesting the military draft in the USA and taking refuge in this Central American country that had no military. The younger Scott family was in Costa Rica to give their young children an opportunity to experience another culture and learn Spanish. Three very different weddings were interesting markers of significance. The first was Sheldon Wallbrown's (Janie's son) marriage to Parul Sharma. The interfaith (Christian-Hindu), intercultural (US-Punjabi) celebration, crafted by and officiated over by David at Sheldon and Parul's invitation, took place on Cape Cod in Janie's Baptist Church. Parul's parents watched the gala occasion via Skype from Mumbai. The second wedding, that of Corinne's niece, took place in the silence of a Friends (Quaker) meeting in Milwaukee. No one officiated. The couple, when moved by the Spirit, stood up, spoke their vows to one another and sat down. The third wedding was the jovial secular Jewish nuptials of David's nephew at the Scarsdale Country Club, NY. The younger attendees sported a variety of costumes Abraham Lincoln, President Obama, Frieda Kahlo, Donald Duck, Paul Bunyan, et al. while the older generation was attired more formally. All three weddings were followed by traditional reception dinners and

dances. LALI SINGH continues to have some problems with mobility but visits daughter Mohini in Kelowna whenever she can and where she plans to move to as soon as she is able to sell her house at Burnaby. The fall at Kelowna is beautiful. Her grandson is now a peewee so very busy with being a rep and playing hockey in the province. When he plays in town, Lali loves to go and watch him. The fire damage to the residence of BOB and Susan STEWART near Colorado Springs was complete including destruction of all trees. Their insurance company has treated them fairly so they should come out of this OK in a material sense. They spent most of the week at their burn site cleaning up and filling dumpsters with metals to send to recycling. And on weekends they go to auctions to find wonderful replacements. They have started to look for a house probably in the same area. It is beautiful even with all of the hazards. These disasters don't happen to everyone, nor all the time. JIM TAYLOR has almost recovered full use of his left elbow, after falling off a wall and smashing it last spring -- on April Fool's Day, of all times! Gardening is now classed as an extreme sport. Joan's leukemia seems to be on hold, but the precariousness of her health has pretty much ended the Taylors' travel outside of Canada. Another bit of good news is that their grandson's six-hour rages finally seem to be coming under control. Jim continues writing and e-mailing his twice-weekly newspaper columns, and still teaches his Eight-Step Editing course a few times a year. JANE DOWNS WALLBROWN welcomed Parul Sharma of Mumbai into the family as she married son, Sheldon Wallbrown of Hyderabad, on May 11, 2013 on Cape Cod. There will be a Mumbai wedding in February; one of those glorious 4 day series of traditional festivities. Afterwards Janie plans to take family members to visit Tura, Megalaya, her hometown. —TZ

Class of 1954

The nature of our Class of 1954's communications has traditionally focused on the rhythms of our lives. The one thing that has not characterized our communications has been that of the honors, awards, & recognitions that have come our way or items that we ourselves have described as Significant Life Accomplishments. The rhythms of our lives have been & are our significant life accomplishments. We hope those rhythms will sweep many of us to Baltimore in July 2014 for the Centennial Class of 1954's 60th reunion.—*Marianna*

Class of 1955

We have many travelers in our class. FRED & Carole HOLLOSZY, JOHN & Tura GILSON, BILL & Lib KINZIE, Dick & BETTY ANN MCELLOWNEY CONARD, & VERDA HOSTETLER BIALAC traveled to Marysville TN for the WOSA/NA meeting. IAN WEEKS has had 4 small strokes but is grateful that time, rehab, rest & the brain's plasticity will work for him. ANN REINOEHL BRADFORD's husband Charlie has multiple issues to cope with. STEWART ROBINSON's sciatica has been treated successfully; an aortic valve is being monitored. VERDA's husband has a nodule on his lung that is being monitored. The classmates of these people wish them well & pray for full recovery. Sadly our class has suffered 3 deaths: SAM CAMBATA, PEGGY ENSMINGER MOE's husband Roger, & BRUCE VICHERT. We grieve with their loved ones.—Verda

Class of 1956

JOHNNIE and Diane SINGH celebrated the marriage of their son in Spring, 2013. Byron Shafer shares the news of the publication of Distinguished Alumna MARGARET LOEHLIN SHAFER's posthumous memoirs, *Home Is the Journey: My Life* is available in paperback and as an ebook as of Christmas, 2012. It can be ordered from bookstores and on line, ISBN 9781628397192. TOM SCOVEL shares the news of the publication of a book describing his unusual opportunity to live and work in China in 1979, interspersing this account with stories of his adventures as a boy growing up there. *The Year China Changed: Memories of Remarkable Events and Extraordinary People* naturally focuses on the People's Republic of China. Tom also describes some of the contrasts he saw between India and China when his family left

the PRC and he began to attend Woodstock. HAZEL KAHAN was involved with making a film about resilience in South Punjab villagers affected by the floods in 2012-13. BRUCE WOOLEVER realized a dream as he graduated from Penn State's Master Gardener Program. One of his projects was to plant a vegetable Demonstration Garden at their County Food Bank. The purpose is to teach the recipients to be more self-reliant. Bruce volunteered to be the FWS Regional Representative for the Central Pennsylvania area and was excited about the responses received to Dr. Long's visit in Lancaster, Pennsylvania. ABE SOFAER, who spent one year at Woodstock as a child, has just published *Taking on Iran* (Hoover Press, Stanford University), and has a new granddaughter, Noa Yun Sofaer. JANET THOMSON BURK and husband were thankfully distant from fire and flood this year. Class of 1957

It was one year ago that we gathered in Lewes, DE to celebrate our 55th Class Reunion. It was a time of warm memories, funny stories, sharing, talking and laughing. We missed those who could not be with us. The years are rolling along but we had many adventures to share, and we look forward to many more adventures that lie ahead. Our class was so thrilled and proud to present the sculpture of Gandhi by JIM HAVENS to Woodstock School. He is a gifted artist. He and Karen have our deepest respect. Although they are taking life at a slower pace, Charlie and JUDY CARPENTER MILLER still enjoy playing duplicate bridge, struggle to keep up with the world of technology, delight in gardening, gather frequently with friends, and host family gatherings. CAROLE CARPENTER EDISON is refocusing and readjusting her life after the loss of her husband, Ed. She is showing her usual tenacity and courage, and with Judy nearby continues to live independently. DAVID & Eleanor FIOL retired this June to western North Carolina after 49 years of work focused on a children's home, a seminary, church work and schools in Dehradun. They are settling in to this new life but are waiting on God to show them where their energies should next be spent. he hopes will someday be a published book on China-Southeast Asia relations. RUTH KESSELRING ROYAL has been trying to catch up on all the gardening and housework she ignored while working on her book *Never Gonna Cease My Wanderin*. She has done some book readings, and sold many of her books. Nick still enjoys singing in his choral groups and playing his mandolin in gigs in the area. DAN SANFORD still pastors the Ankeny Church of the Brethren in Ankeny, Iowa. He and Marlene are enjoying retirement when time permits, and visiting family in South Carolina and Florida. ELLEN BARTLETT NODELMAN has cut back to one week a month of work in her school in New York. Now she has time to play her cello, garden, take walks with Len, enjoy their grandchildren, and work on a variety of writing. They have been blessed with 7 grandchildren, 4 great grandchildren and 53 years of marriage. DAN & Lois KOBAL have enjoyed jaunts to see family and grandchildren. They look forward to the yearly Morgan Sports Car Club black tie gala in DC. They also enjoyed meeting with ASHOK and Carolyn MAYADAS, and JIM and Karen HAVENS. LINDSAY FISKE HOFMAN welcomed granddaughter Julia Ann Hofman, March 27, 2013, parents are Pierce and Carrie Hofman, her younger son. LIZ FOSTER and Terri Lukacko were married legally in New York State, on August 12, in order to meet the requirements of the half-baked Supreme Court decision. (Same-sex couples will get federal benefits, but only if they married in a state that has passed same-sex legislation.) This past year has been difficult for WILLIE KNIERIM with the loss of wife Pattie due to complications from ovarian cancer. A trip to Chattanooga, TN

to spend time with SCOTT and Courtney BUCHER and to attend the WOSA gathering in Maryville, however, was therapeutic and tremendously enjoyable. Visiting friends and relatives along the 2400 mile road trip was a consummate blessing. Thanks to all for generous expressions of support. NORM MUNDHENK's wife Alice had had pancreatic cancer in 2010, and they thought it was taken care of at that time. However, in August 2012 it had returned, and Alice died in May 2013. September-October Norm took a long trip, partly to give friends in Papua New Guinea and Myanmar a chance to express their condolences personally. He also joined a group in Iraqi Kurdistan which helped to monitor the elections held there on September 21. MAUDIE BROOKSHIER DAVIS and John spent a year of traveling to Florida, Texas, Baltic Sea countries, and Christmas in New Orleans. Four out of eight granddaughters are in universities across Virginia and in Boston, next year six will be in college. After a long journey from Sarobi, Afghanistan ROGER and FOLKER PFENIG and their mother arrived at Mussourie in the spring of 1953. Each was carried on a sedan chair up the mountain road to the entrance gate of Woodstock. This was a completely new experience and after their mother had left, both brothers (11) and (12) experienced the first day of living in a boarding school, far away from home. Soon both learnt to appreciate school life

at Woodstock. Stripes of the Tiger: Paws for Refection is the second of Marilyn Peters' three-book trilogy of inspirational stories from many countries--Korea, China, India, East Pakistan, Guatemala, Costa Rica, etc. All proceeds go to impoverished children in Central America to whom she ministers each year. WELDEN and LuEttA FRIESEN moved into Goshen from their home in the country of 37 years. The summer was spent in remodeling, downsizing, packing, moving, and unpacking. When Weldon gets his workshop completed, the move will be complete. Sara and CHRIS JOHNSON continue to divide their time between Geneva and Bangalore enjoying the best of both worlds! They are thrilled that daughter Sonali and son, Mark are both tying the knot with their long-time companions early in the New Year! Their primary leisure activity remains golf which keeps them in good physical shape as they average 21km a week by walking briskly on the golf courses. A highlight this year for ROBERT BONHAM was the opportunity to participate in planning and presenting the annual meeting of WOSA at Maryville College, TN, under the theme Mountains, Music, and Memories. This included the pleasure of hosting many classmates in our home first. A dozen individuals, including several Woodstock friends, joined in a trip in the late fall 2012 organized to visit sacred sites throughout North India. They were delighted to attend a teaching session with H H the Dalai Lama in Dharamsala. Other trips included Costa Rica, teaching in the 14th annual Keyboard Wellness Seminar in Texas, and presenting (both a lecture and music) for a wellness conference in Santa Fe. GAIL PILLEY HARRIS was also an important member of the local committee working on the gathering - including picking up folks very late at night at the Knoxville airport. PHILIP MCELLOWNEY's great-grandson was born in December 2012, Elijah Ross McEldowney Garcia, He and Deej will be sailing on a four-month round the world cruise on the Semester of Sea, in Spring 2014. LI CHU is still heavily involved with the Alumni database, despite all attempts to pass it on to someone else. Otherwise, life continues the same with gardening, volunteering and involvement with the University of California in Berkeley.—Li

In July 2013 FWS held its annual meeting at Maryville College, TN, where 12 classmates & 4 spouses were present even though it was not an anniversary year: HELEN DOBSON ARNOTT, JOHN ALLEN BEACHY, DEAN (MAC) DOBSON, LEON DILLINGHAM & Sherill Miller, CAROL RUGH GREEN, BRUCE HOLDEREED, JIM RUGH & Louise, LEE RICE, LESLIE SAUER & Sharon, EDITH THEIS-NIELSEN, PHILIP WELLS & Marilyn. Then, a smaller group went to Nottely River Campground near Blairsville, Georgia owned by classmate ANN ALDRICH DOCKERY and her husband Doc. Our class yahoo e-mail group has been instrumental in keeping us in touch with each other over the years. HELEN DOBSON ARNOTT is coordinating a FWS Alumni Council project called "Woodstock Your Way", a homestay program involving WS alumni around the world. It is anticipated that once the project has been approved by the FWS Board, Woodstock alumni will be able to stay with other alumni around the world, thus enhancing a closer, friendlier alumni organization. Stay tuned for further

information! JULIA BEERS RITTER-SHAUSEN's son Johannes Reinier Beers Rittershausen married his love Pearl Ray Sun in her gorgeous white dress first in New York City's Central Park on June 28, 2013. A second ceremony took place on July 28, at the 888 Seafood Restaurant in Rosemead California. Johannes walked his mom down the aisle as wished by his late father. The entertaining ceremony included Johannes accompanying Pearl as she sang Still Love from a musical, the recessional and other tunes were played by Julia and friends. The ceremony was followed by 10 courses of delicious mandarin food. Here is to the very best of marriage. RUTH LACY LONG had a grandson Sept. 6 2012. "He is almost a year old and we spent our first afternoon back from Italy watching him learning to stand and also walking his first tentative steps. It was pure delight. For a grandparent it is a thrill to be around for that milestone which he himself will always take for granted!" ANTTI PAKASLAHTI's eldest daughter became the grandmother of a lovely little Finnish-American girl, "the shining light of love for all of us!" ALAN ROBINSON's: son Wayne & his Northern Irish wife Susan had their first baby, Willow Hope on Aug.7, 2012, so is a similar age to Ruth's latest grandson. "We managed to get over to Bulstrode, near Gerrard's Cross (½ hour from London by train) in May to visit a month. What a good time we had with Wayne, Susan & Willow!" One of the highlights for WALTER BELL was having lunch with Julie Elfving in the Kansas City area in July. They enjoyed the time and thanks for thinking of a place near where his cousin lives. WILLIAM CUMMINGS continues to teach at The George Washington University, directing the program on International Education. He was awarded the Lifetime Achievement Award by the Comparative and International Education Society for research on comparative higher education. He is the happy and challenged father of two second graders, Catherine and Alexander. MIMI SORLEY HINTERKOPF and husband enjoy life in a small town and commute to Baltimore for activities with international scholars who occasionally visit them on weekends. In the summer she enjoyed a visit with classmate JANET BROWN SMITH. She also loved having 3 young California grandchildren visiting, and a fall visit from their 2 New York grandchildren. WILLI WELLMAN KREITZ visited Buffalo for granddaughter's wedding. She also spent time with grandson and son. Finally met the great granddaughter who started KG this fall! and was the flower girl at her mother's wedding. Three of our class were at the reunion, including WOODY TURNER and GEORGE DUNKLEBERG. In the suite I was in, there were alumni from '72,'79,'87 and '61 - dorm life really changed every decade!!! Aside from that and a trip to Baltimore to visit gals she had worked with 20 plus years ago, she hasn't done much by plans on going to Washington state next summer to visit with sisters and family. She'd be happy to see anyone who comes through this area, you can find her on Facebook. BARBARA MACDONALD is retired, enjoying her grandson, reading, painting watercolours. She has started to refinish a piece of purchased furniture, and succeeded after some trial and error. SUZANNE LA ROCQUE MCCLINTOCK living in Sheridan, WY enjoying a grandson and a granddaughter. They keep busy with volunteering and the Y and visited to Ireland, in a rental car,.. Green!!! She is still recovering from a car accident, with the left arm still pretty weak but getting stronger and more useful. She is not looking forward to winter and snow as they had a cool summer. Stop by if you are

in the area. JOHN WILSON' wife Linda had a hip replacement in April followed by a broken pelvis. She's out of pain management and recovering full mobility. They had to cancel vacation, but pared down their stuff and landscaped the backyard. He is finishing another revision on his first novel, has a draft of a second, and 55K words on a third. JULIE BUNCE ELFVING finished up another great gardening year with nearly 300 hours of volunteer service to the Extension Master Gardeners program. Surprisingly, none of the rest of you mentioned this milestone year – surely she's not the only who turned the big 7-0. For her, it's mainly a curiosity, as she is in total denial of her age. She practices Taijichuan, and is privileged to be taught by a 20th generation descendant of the Chen family. They were honored by the presence of her uncle, a Chen Grand Master and one of the top 10 martial arts masters of present day China, for a 4-day seminar. Would love to visit with anyone passing through the Kansas City area.—Julie

experience. JOAN BROWNE BROOKS reports her mother at 93 is doing well although shortened memory and some falls are taking their toll. In 2012 Joan directed the play *Playing With Fire* at the St. Croix Wisconsin Festival Theatre and last summer she returned to direct *The Foreigner*. To Joan the wonderful scripts, imaginative stage artists, good actors, and beautiful setting along with an actual paycheck were all enticing. CONSTANCE BUCKLEY DENT bemoans the multiplicity of same names on Facebook - forcing her into using her formal name. JOE DEVOL shared memories of BOB MILLER, alluding especially to the excitement of the Olympics relay with the winning team of Bob, JOHN, MEHERJI CASSINATH and himself. We truly appreciated the photos sent by HELEN DOBSON '60 of the memorial rest area near Dhobi Ghat for her brother and our late classmate GEORGE DOBSON. PETER DOWNS and Suchada keep busy in Chiang Mai with volunteer work managing their community in a fruit orchard. Three months of the year are spent in the USA enjoying their grandchild, daughter of son Paul and wife. Another babe is expected in early 2014. Now, even more travel, thanks for joining the Woodstock Board! JOHN DUEWEL and Retno visited daughter Santi in Maryland and greeted their new grandson. John's irrigation projects take him back and forth weekly from home in Semarang to offices in Jakarta. DAVID EAKIN and Tess are looking forward to the coming birth of a granddaughter, sister for Anne's sons Isaac and Aaron. Also, retirement is on the horizon as Dave and Tess have put their Chimney Sweep business up for sale. As described by Carol CHARLES GIBB and Dianne are forever looking like newlyweds yet have four children and seven grandchildren. Two oldest granddaughters are about to graduate from college. Of Chuck's numerous hobbies and projects traveling for great fly fishing seems to come first. Now retired, MARILYN GOOD SINGH is using her time to record the Oregon coast in paintings. Although she sold one through a Portland gallery the joy of that was greatly diminished due to the 50% commission taken. Marilyn hopes to put together enough of a collection to show in coast galleries soon. CAROLYN HEATH DEMICK retired early due to back surgery and to be available in any way to her husband Jack when his son was diagnosed with terminal cancer. Carolyn's daughter has a Masters degree in Molecular Biology and works in the Puget Sound Naval Shipyard as a Chemist. Her

son is a teacher and coach in New York and the father of two. CHARLOTTE HEATH FRASER and husband Dan Buck went to India twice this year. It had been 54 years since Char was last there and it was an amazing experience. Both loved Landour, scouting around Woodstock, meeting staff and Dr. Long, and then giving time to visits to other parts of the country. The new adventures with the rekindling of memories were almost overwhelming. CHARLES HORTON was able to represent the class at the memorial of Bob Miller in Worthington MA. His call for memories of Bob started another class email conversation. SUSAN HOSTETLER GUIPE was among the '62ers in attendance at this year's WOSA reunion in Marysville TN. REED JUDY has retired from his Credit Union work as an appraiser for rural properties. He has two children and several grandchildren. DIANNE LAZENBY NANCE was a member of our class during 9th and half of 10th grade. She lives in Fort Lauderdale FL and is the wife of Attorney Marshall E. Nance. Dianne is a well known watercolor artist with works in many collections including Disney, Lexus and Miami Museum of Modern Art. As each grandchild reaches Grade 8 CAROLYN MUIRHEID PRIBBLE and Walter have taken them on a trip of their own choosing. This summer's trip with a grandson was a horseback riding safari to Ant's Nest Safari Lodge near Vaalwater, South Africa. Such a trip is a special gift of time and attention uninterrupted by parents or other siblings. ARUNA NAYYAR MICHIE and Barry are enjoying retirement. When people ask What will you do now? the answer is, Why do anything? We have been doing for 40 plus years! Always important to have some Do Nothing time. NORMA POONG ST JOHN enjoyed the FWS get together in her LA area. She was impressed by Dr. Long and the programs in place for Woodstock's new direction. Her son's company is nearby so Norma takes him lunch every so often - great to be able to embarrass your grown up son with a packed hot lunch. To celebrate Eva's 60th birthday, she and DAVID SCHOONMAKER enjoyed the historic Orient Express from Istanbul to Prague via Bulgaria, Romania, Hungary, and Poland. The end was three wonderful days in Prague. David, on the Woodstock Board, keeps classmates up on the many positive changes taking place at the school. In August VICKI SCOVEL HARRIS attended a Scovel family reunion in New Hampshire, 44 in all. She is so looking forward to being retired and having time for her

quilting. MANU TANDON lives in Pune; he has retired from a company dealing in industrial adhesives and coatings. JERRY JEAN TILESTON was a member of our class for our Freshman year. She graduated Phi Beta Kappa from Whitman College in WA state. She was associated with City & County of San Francisco with the role of MIS Manager. Staying on the blue roads, SUE WARNER BIRKINSHAW and husband Paul Joines drove across the country to attend the 2012 gathering. Paul enjoyed being a part of the reunion quartet by playing the cello for Sunday service and the evening closing program. TROY WHITE was thankful that insurance is covering all damage to his home after the spring storm that wrecked havoc on about 80% of his town in Kansas. DOUG WILKENS is the ever faithful reunion attendee, and ever faithful supplier of additions to the Audio system gift by the Class of 62. The class is hugely indebted to his professional expertise in such matters. In his work for audio equipment companies including presently with Pivitec as Director of International Sales Doug has now logged over a million miles with United Airlines + untold miles with other airlines. BETH BROWN HEATH, DAVID SALMON, and DOUG ENSMINGER haven't sent any personal news but are always popping in on class email conversations.—Sue

TED and Jackie CHITAMBAR still in Frisco, Texas, are deeply involved in their church. Jackie is a member of the board and Ted is the president of the largest Sunday School class. They had a terrific family reunion in Sedona Arizona and a Caribbean cruise with eldest granddaughter. Jackie has a magical craft room that enthalls the 12 grand kids. Ted is still trying to get his business off the ground. WILL MANTON who has been adjusting to the loss in January 2013 of wife Gia, has some terrific friends who have allowed him to continue the process with some of his sanity. He not only planned for the class reunion trip but also for an eight-day trip to Burma where his parents lived from 1937 to 1965. The trip was spectacular because of the feeling of having come home again. KAREN ANDERSON HOLDEN on the class reunion trip, back in India for the first time since 1956, is discovering how important that experience was in who she is. The highlights of the year were engagement in music, her kids, and camping in glorious Southeast Utah. Four women, all in their 60s, published an article in the Boundary

Waters Journal about later-life canoeing. She still has her Cajun women's band and teaches Cajun dance. She is lucky to have her children and one grandchild living nearby in Madison, Wisconsin. ESTHER JANTZEN is currently having a grand experience as a homeless global gypsy. She sold her little Southern California home in Oct 2012 and has been on an extended road trip, including a three-month house-sit in beautiful Santa Fe. Last September I walked the Camino de Santiago pilgrimage in Spain again, visited friends in Switzerland and England, and topped off my travel year in India and Bhutan with my wild and wonderful classmates. My base remains with my daughter and her family in Los Angeles. BILL TAMMEUS marked two Woodstock 50th class graduations in 2013. He was part of the Woodstock School Class of 63 for part of the 1956 school year, but he received his high school diploma from Woodstock Community High School in his hometown of Woodstock, Illinois., and attended his 50th-year reunion there in September. BARB GARBER AUSTIN and partner moved from Naples Florida to Hot Springs Village, Arkansas this year. It is a new adventure for us and puts them closer to some Woodstock classmates who live more in the Midwest. Every year Hot Springs hosts a documentary film Festival and they were fortunate enough to volunteer this year. It was fabulous! They would love to host anyone who wants to come for this October's event. Life is indeed very good these days.—*Suzanne*

Husband John Ochs is nearing the end of a huge book exploring 20th century American boxing. MARY HOLDEREED EARLY reports that she retired on May

31st, and within 2 weeks injured her knee badly enough to require surgery. So instead of going on an Alaskan cruise, she had arthroscopic surgery and made friends with some very nice physical therapists. Beth's children are scattered across three continents, and 10 grandchildren hold her heart and have infected her with a future hope. ALLAN KEISLAR published a 150-page ebook this year, Madhyama Bhakta: On Becoming Second Class Devotees. The basic message is that although neophytes, or third class devotees, depend on a religious authority to tell them what to do, and therefore generally believe that their own sect or church must be the best one, we should not remain on that preliminary platform but should come to the point where we can discern the truth ourselves, including the weaknesses or defects in our

Two kids: Robert (34) in India, and Kathryn (30) in Indianapolis. PATTY RIDDLE is still racing track bikes, winning 3 gold medals at the National Championships in Indianapolis. the World Becomes Female: Guises of a South Indian Goddess. PAUL SMYRES got his pilot license, and a new granddaughter,-visited Thailand twice. He got an amicable divorce, moved to Ohio to be near son, brother PHIL and other friends. Parents still in Florida, Dad has all his wits, but mom is fading with Alzheimer's. He'd love to hear from classmates. DAVID MCCULLOCH and Julie have had an eventful year. The highlight was a trip to India in October 2013, visiting the Pujab and Mussoorie. David was pleased to reconnect with VIJAY DAYAL whom they visited in Arpana along with his brother HARISHWAR '66. KAREN RASH has been living in Nunavut territory in the north for 3 years as a human resources practitioner. Andrew is a caseworker at the correctional institution. They are busy preparing for non-working years to come and were reunited after 16 years with son Jeff and two delightful, wonderful, lively little granddaughters. KATHY REES GROSVENOR practices in-home behavioral health therapy with families, outpatient mental health counseling, substance abuse evaluations and non intensive substance abuse counseling at Saco River Health Services in Waterboro, Maine. Ken is grandpa daycare and keeps busy with kids events. Daughter Julie is Chief Medical Officer for Goodall Hospital and Mike is a nephrologist. Ken is busy restoring Julie's 1949 Dodge Wayfarer for the 25th class reunion in Iowa in 2015. POLLY PETERSON and JAMES GEDDES (S) took a road trip across the US in October& November, visiting friends and family. RUTH SCHOONMAKER VELASQUEZ got married this summer to Brian and had lunch at Gem of India with Bob & ALICE HAAGEN SNYDER and Don & NANCY & DON JOHNS ERICKSON. NANCY is keeping busy working with local charities and trying to find ways to improve them and serve people better. She has received UMW Woman in Mission of the Year for her district, it was an honor. She enjoys work with UMW. Not much has changed for DAVID RUFF the last few years; he still owns a lawn care/home maintenance business in Durham North Carolina. Both of his sisters (Barbara & HEATHER '71) live in the Raleigh area, so they get together for Indian food from time to time. He and Kathy have been together for 11 years now. She is retired from Durham Public Schools, where she taught special ed for 33 years and now is enjoying her 3 grandchildren. They enjoy traveling in their travel trailer to lakes and the coast to kayak, (they have a Pygmy double so he paddles and she can sightsee when she wants) and take their recumbent bikes (great for the older body). They have been going to Florida in the winter to play with their toys. It's good to hear from

Class of 1972

Our next class reunion will be taking place in Shediac, New Brunswick, Canada in 2017, with native ANDREW JENNINGS acting as the host, and really looking forward to it. JANE LOANE GORMAN and Tom live in the Toronto area. Their first grandchild arrived March 25, Anna Marissa Gorman, daughter of Dan (24) and Michelle, and now a thriving delight. They live about an hour away, so the highway from Toronto to Peterborough has become a road well-travelled! The second big news is that Tom retired from high school teaching at the end of June. He is loving retirement, so much that he opted to stay longer at their Nova Scotia cottage, to bring in the fall colors! Jane enjoys her position as a school speech-language pathologist. Choir is still a passion, and she has recently taken up the cello. Their daughter Emma (22) and partner Scott live close-by; Emma is currently working as a server/bartender, would like to go back to school, but is figuring out what she would like to take. PAT WHITCOMB GREEN-SOTOS is enrolled in a year-long Yoga Teacher Training and hopes to ease into semi-retirement next year by cutting down on her hours in the New-born Intensive Care Unit, to teach Yoga. She is already teaching 4-5 classes a week and loving it all, with a goal to Age with Grace and Dignity. She offers a big thanks to her WS classmates who encouraged her to take this new path. She also enjoyed a month long visit to Mussoorie and WS with MARGARET RHODES BURNETT in October, the perfect place to celebrate a birthday, looking out on the Winterline and enjoying the wonderment

of our past, present and future. In June, RAY KAWATA marked 31 years with Maryland Public Television. Though he has qualified for a service retirement from the State, he expects that will not happen for a few years. Jen and Ray's daughter India graduated from high school and after a summer internship working in a research lab at National Institute of Health, has started her studies at the Univ of Maryland. India is now in an apartment of her own so technically they are empty nesters. They have started the process of building their retirement house in Colorado (in the mountains of course!) The house project is coming along, however the recent flooding in that area may set things back a bit. They are looking forward to the class reunion in New Brunswick. This past year saw BARBARA PHILLEO MILLER (BP) and Bull become in-laws and grandparents. Their youngest son was married last year and had a baby daughter in May. JB LOWE and his friend came for an afternoon. BP was impacted by the government shutdown in October, so they went on a road trip, covering most of Maine from coast to mountains to Great North Woods. As they got close to Canada, they thought about the upcoming reunion in Shediac and are looking forward to it. SUSAN MOODY is enjoying success with her artwork at Vanderbilt. She had a show called "Little Boxes", with seven metal and enamel boxes on display for the summer. RODNEY DYCK and Marie included a trip to

Eldon Gamble '68, Linda (Gamble) McKendry '66, Susan (Gamble) Unger '73, Gary Gamble '71

Paul Conrad '74, Mary Conrad Lo '72, Glenn Conrad '68

Barcelona, Spain in March to see son Kelsey and wife Alejandra, and a 3 day trip on the Ohio River on their neighbor's homemade canal boat. The infamous 60th birthday was celebrated with the goal of attempting 60 new things in the coming year, one of which is building hives to start beekeeping. RUTH ANDERSON BRADING is well into 8th year of living in Sydney but may well be re-locating in 2014 back to the UK when husband, Steve retires. They've been happily married for 33 years, family flourishing, with a 4th granddaughter born Nov 12! Still loves walking & running, but no 1 passion is to know and love God more, and to make him known! JANINE CLAYTON reports that Rick has retired and is enjoying every minute. When she asked him to reflect on what sort of adjustment time was required, he replied, 20 minutes. She however, continues to work for the US federal government, discharging her duties as the supervisor of an absolutely breath-taking, inspirational and incredibly beautiful national forest in the SW portion of Washington state, the Gifford Pinchot National Forest, which includes the internationally recognized icon Mount St. Helens National Volcanic Monument. They visited Paris over New Year. The envy of many, JOE PILAAR got back to Toronto from guiding another very long trek in Bhutan, a fantastic journey, with a great group of 16 people from all over the world; but had a harrowing experience with one of the clients at the end of the trip. He was in Mexico for most of the winter. KIRAN CUNNINGHAM and Russ Rhoades feel lucky to continually gather with their wonderful Class

of 79 family. They are looking forward to their 2014-15 sabbaticals in Sierra Leone, hopefully punctuated by a class reunion in Thailand. KIM BRENNEMAN reports that Jeremy is a senior this year, deciding on college, Rachael a freshmen in high school. At the end of Jeremy's soccer season he tore his ACL, had surgery and couldn't play during the State tournament. Kim took a group of medical graduate students to Honduras for a few weeks as part of their program at EMU and loved it! In Tolland CT, MERTI DJELANTIK RITTEGERS' son Robin graduated from High School, trying to figure out what he wants to concentrate his studies on; son Tobie finishes his obligations with the 82nd Airborne Unit in the summer of 2014, and making plans to go to school. Shanti is working part time and trying to get as many freelance jobs as an illustrator as she can. Husband Bruce was not lucky in dodging the pink slips but he and a lawyer friend set up their own business and contracted themselves back to the company, on their own terms. She enjoys her work as Occupational Therapist in various nursing homes, and enjoying some travels whenever opportunity knocked, last trip was a Caribbean cruise to Barbados. JAINA SANGA published her first novel Silk, Fish, Opium that she presented at the WOSA reunion. As for JAMES HACKNEY, it's been quite the roller coaster of a year full of travel and tragedy, busy and lazy with a couple trips to Canada visiting of WS types, and an emergency trip to Uganda!, a couple trips to Florida to see family, some fun in Utah, much tamasha with friends at the WOSA reunion in Maryville, TN followed by our annual pilgrimage to northern Michigan and the Pebble cottage followed by the Blissfest music festival with the usual suspects of CAROL DODGSON KLOOSTER and family, STEVE EDIGAR (S), of course Kiran, Anita, Dave & JOIE MORRIS DEWOLF '72, a little different dynamic now as the kids have responsibilities; the fun was repeated a month later with the same cast with the addition of DOUG HAVENS and DARAB NAGARWALLA '80 at KEVIN SCOTT's place in Bloomington, with three days of floating in the lake and camaraderie. This year was punctuated by the death of his mother Faye Hackney Lance in March and his beagle-companion Stanley the same month. Overwhelmingly the class reunion next year will be at the Vongduern Villa Resort, Koh Samet, Thailand over New Year's 2014-15. All friends of the class, known and unknown are welcome, you know who you are! Apparently we have a reputation to maintain, good or bad depending on who you ask—*James*

Class of 1980

AMY DYE I know it's probably too late but I don't have much news anyway. I'm graduating my second homeschooler this year, Jonathan. That leaves me with two: Abby (7th grade) and Michael (4th grade). It seems there's been a fair amount of travel among our classmates as well as the joy of keeping centered at home. Among those who have stayed put is DARLENE SEAMAN SILLIMAN, still busy with their little raw milk dairy and organic farm in Washington. With milking 6-7 cows twice each day, they have to stay close to home; a never-ending cycle of calves arriving, eggs hatched and piglets born and care for a large garden and fruit trees. Daughter Savannah is already in grade 8 and active in equestrian events and 4-H Club. JASMEET KOHLI SINGH is doing well here in Toronto and keeping quite busy with the business. The kids, older son (27), younger son (21) and daughter (19) are all grown up. The younger two are in university and the eldest is working. FARIS NEJAD remains at home in Volos, Greece and says that, if the economy is letting them down, at least the weather is perfect! Between caring for his own large menagerie of animals, including horses, rabbits, cats and an iguana, Faris finds time to manage construction projects for local clients AND to work on a current history novel about his adopted homeland. He also writes that he likes to fish (but perhaps could use some more practice in this area). CHAYAN CHATTERJEE is busy with family in Calcutta. His son will be sitting for his class 12 exams this year and the house is now like a library or study area. Chayan also plays an important part in caring for his father (87). The family planned a pilgrimage to Puri in November to petition Lord Jagannath for success in their son's upcoming exams. TIM WEIDMAN and family have now been home for over a year after several months of world travel. Seems like he is still processing some of the things they saw – especially in the village where his parents worked. Son Nathaniel is a high school senior and plays bass guitar for his church and youth group. Daughter Cassie is in grade 11 and spent the summer working at an outdoor church camp. The family remains active in their church and Tim's wife Roxanne has lately been helping an MK from the Philippines who is settling into American ways. Tim's work sounds interesting but time-consuming, helping connect new wind generation sites in the Columbia Gorge area to the area power grid. NUPUR CHOUDHURI DAVIS is Head of English at a private college in Perth, Australia. Her kids are grown and working, her daughter as an electri-

cian and son at a fiber optics company. She and husband Paul, a long haul truck driver, have been married for 4 years now. GLENN DAVIS and Mary visited India last year. Glenn continues as Minister at the First Christian Church of Broken Arrow, OK. Part of his work as one of three volunteer chaplains for the police and fire departments is to get called out to all fatality accidents, suicides, death investigations, hostage negotiation situations, some domestic violence situations, death notifications to family members, large fires where people may be trapped, to provide debriefing and counseling for police and firefighters. He carries a badge but will not carry a weapon. SUDHA KAUL and Sanjiv have become empty nesters. She still teaches at San Jose State Univ. It's hard to believe that she has been doing this for more than twenty years. Son Arjun is a junior at UC Berkeley (majoring in Material Science Engineering). He just ran his first marathon after training for just a few weeks - nothing is impossible at their age. Daughter Maya started freshman year at Pomona College, in Claremont near LA. She is pursuing an interdisciplinary major, PPE (Politics, Philosophy and Economics), really enjoying the opportunities at a small school, and likes her teachers. ELOI BERTHOLET lives in Montreal and works as a drummer and teacher. His daughter (23) is studying creative writing at Concordia Univ and son (22) has a certificate in computer-assisted drafting, currently looking for work. Both live in Montreal. Eloi still looks back at 1978-79 at WS as the best year of his life. He wishes all the best and look forward to learning where classmates are and what they have been doing for the last thirty years. Among our travelers this year is LIANA GERTSCH, who had taken a job with Save the Children in Bangladesh at their Country Office in Dhaka. She finds it fascinating to be so close to system change and policy involvement. 'Save' has been there since 1971, so they have a lot of traction on the ground, including in areas that were previously untouched such as faith-based education and children of garment workers. She was asked to lead an early childhood/early grade education program called PROTEVA and was recently asked to take on a second project called READ. Liana's move has entailed some adjustments in her family. Son Isa is studying economics in college in the Netherlands, daughter Sarah (17) is finishing her schooling

with her dad Salomon staying with her, and son Elias is at school in Dhaka. The family manages to get together every 2-3 months so, as Liana says, there's always the next visit to look forward to. As if she weren't busy enough, Liana has returned to studying sarangi and is learning Bangla! VINAY MEHRA visited Australia this year, where he was dropping son ARMAAN '15, at Scotch College in Adelaide, for a semester as an exchange student from WS. Daughter JIVIKA '11 is in her final year at Les Roches School of Hotel Management in Switzerland and SAKSHI '13 is based in Delhi. Vinay had a chance to visit with YUSUF KHAN, who lives with his family in Melbourne. He remains connected with lots of classmates, including RAJ KAMAL CHAUDHURI, who has been promoted to the post of Home Secretary to the Govt. of Punjab, a very senior position in the IAS. Vinay also tells us that ATTLEY BRAR has a new son and that HARJINDER (Tiger) SINGH is still based in Kanpur. It has been a busy year for GINNY BANGA UPPAL. She and her husband traveled to Boston in May to celebrate the graduation from Berkley School of Music of son KABIR '06 and daughter SHEENA '03 was married in Delhi, an event attended by Woodstockers from both generations. I, BETH NORFORD, spent three months in India and Nepal, attending several education conferences and meeting with Woodstock friends. I enjoyed the amazing hospitality of TENZING NEMA in Mussoorie and thoroughly enjoyed spending time with not just Momo, but also his wife Tsering, mother Doma, son Tashi and lovely and talented daughter-in-law Tanya. Momo and Tsering continue to manage Doma's Inn and recently completed renovation of a beautiful flat in Landour, along the path above their guesthouse. Tashi is building his business of leading motorcycle tours (one of his clients this year was DAN LIND(S), middle son Gautam is making a name for himself as a dancer in New York City and youngest Siddharth is proving very successful as an up-and-coming filmmaker in Mumbai. While in Mussoorie, I met with DAVID RAND, wife Raquel and daughter CAROLINE '15, who finished her sophomore year as a SAGE student at WS. Caroline reported that she had a great experience in India but was also looking forward to getting back home to California. We were all hosted for

Vinay Mehra '80 & Yusuf Khan '80 in Melbourne

a dinner at DARAB NAGARWALLA's and enjoyed the company and hospitality of Naz and daughter VANU '17, who started high school at WS this year. In August Darab traveled to the States to begin eighteen months of study in the field of education at Goshen College in Indiana. ANNE and DAN LIND (S) have offered him use of the basement of their house in Goshen while he's there and some of us are hoping to get together sometime during Darab's stay for a mini-reunion. He's also hoping Naz and Vanu will be able to make a visit. In July, I got to meet with DAVID TAYLOR and Lydia at the WOSA reunion back in the States. David is living in Chattanooga, TN and recounted the adventures of kids Daniel (working for Amazon), Hannah (studying at Covenant College), Isaiah (at Chattanooga State) and Moses (living and studying at home). Isaiah had the chance to spend the summer in Oregon working for his aunt SUSANNAH TAYLOR HURLEY '87 at her family resort, Eagle Caps Chalets (which looks lovely, check it out www.eaglecapchalets.com). The whole Taylor clan gathered in Oregon for the wedding of Susannah's daughter in May. CLARK SMITH, as the Aircraft Certification manager, continues to work towards completion of a major modification to a transport category aircraft in Finland. They are now in the flight testing phase and celebrated their first flight with vigor. He visits with LAURI STARK '81 in Helsinki when schedules allow. It has been great getting re-acquainted with him and meeting his family. ROBERTA PAULS continues to work as a physician in Vancouver and writes that her next adventure as a volunteer surgical mission to Antigua, Guatemala for a couple of weeks in November, was the 4th one, rather like going to visit old friends at the hospital where they work. She would love to do similar work in India, but can't quite spare the extra time for travel and handling jet lag. It is certainly among her long term goals, with a visit to Woodstock, of course. Roberta also reports that VERSHA OZA -HAMANAKA lives about 1/4 mile from her parents' home, in British Columbia.—Beth

My life in the Bay Area has not changed much in the last year. I still work for Joyent, a cloud computing company, though my title and some of my duties have changed from time to time - and my employment status could change at any minute (that's how the tech industry goes). In the meantime, I continue to build my portfolio and reputation (public speaking etc.) with an eye to future work/independent consulting. I live in a small apartment in Oakland (moved out here when rents in San Francisco got too crazy 2 years ago). I haven't had a vacation since the reunion trip to India in 2011, but will spend a month in Australia this December,

unwinding and recovering from major burnout. My daughter Rossella Laeng '08 moved to New York in Sept, 2012. You can usually read up to date news about me on twitter @deirdres, with in-depth stories (including a lot of text, photos and video about Woodstock) on my website beginningwithi.com—Deirdre

It's a great feeling dropping roots after years of roaming around the world like a nomad (though that was nice, too!). After a decade and a half, she returned to teaching, at Lancers International School in Gurgaon. Dealing with high school students keeps her on her toes, but she does enjoy it immensely, so far. ANSHU GOEL AGGARWAL wrote from Dubai that both her boys have gone off to college, how time flies! RANA BANERJEE wrote from London that after 4 blissful years of get up when you like and sleep when you like, his little girl has started regular school hours - welcome to the rest of her life. JAMIE DICKINSON, also in London claims he is too busy looking for his pink underwear with purple polka dots to really be able to send in more news. JEREMY FROST, in Los Angeles, is busy raising his daughter (3), practicing law, and wrestling with his svelte brother

JONATHAN '88. JOSH SHERER, in New York, recently won a competition to see who could eat the most hot dogs. He was subsequently disqualified when it was discovered that MANOJ BHASIN had been helping him. CHRIS

HALE recently discovered some recordings he made in grade 7. He insists that he has matured a little and is no longer the pervert that can be heard in the recordings. His wife, Miranda, disagrees. CRAIG GINGERICH and RAUL HARRI took part in a Bollywood dancing and kung fu flash mob at Tiananmen Square, Beijing, PRAVIN NARAIN AGARWAL is busy with Theta healing, a method for reducing stress-related wrinkles and maladies. He says it's far cheaper than cosmetic surgery and foul-smelling medications, and is offering free sessions to anyone willing to travel to Aligarh, UP. SHIREEN BANGAH moved to Melbourne, Australia almost 5 years ago for a change of scene. What a change it was. Business is slow here and they seem to be missing out on the boom and action in Asia. I'm still doing IT sales and am looking to get out of it. I'm working on my project management certification and hope to complete it by November. I plan to go back to Asia/Middle East. Fingers crossed. I'll keep you posted. SUNDEEP and Fatima Lemus GUPTA and children Maya and Dia are half way through their 3rd year in Malawi. Lilongwe feels like a village with a few buildings scattered around (not including any malls or movie theaters however). Maya (9) and Dia (6) are enjoying their school, close friendships and Malawi's

nature. While not managing the CDC office or spending time with family, SUNDEEP is mountain biking, playing tennis and frisbee, reading and learning guitar with Maya. BONZI CROTTY After 15 years together, Jill and I got officially married this past summer in Maryland! I'm still happily living in Carrboro, NC, raising our boys Declan 8, Henry and Elliot 6. I try to spend as much free time in my pottery studio. It's been a hobby of mine forever, only now, I have the time and means to create and sell unique, handmade pieces. I'll have a web site (bonzicrotypottery.com) up and running come 2014. SINDHU VENKATANARAYANAN still lives in London with her Danish husband (Jakob Hørdler), 3 kids and 1 dog. She has more white hair than last year. Plus, as of 2012 Sindhu has been doing stand-up comedy. In May 2012, completely out of the blue, she walked into a stand up competition in a bar in Soho (this itself has the makings of a joke on several levels) and won. She hasn't looked back since. She performed at the Edinburgh Fringe in 2012 and 2013, did her first gig in India in June 2013 and in September 2013 made it to the final of Funnywomen UK for which she performed at Leicester Square Theatre. Sindhu is absolutely convinced that a talent show at Woodstock in the 9th? 10th? grade -- involving a sketch about a Mrs. Ahluwalia and along with VIVEK DHARAMRAJ, a turn as the 2 old guys from the muppet show (Statler and Waldorf) -- has an enormous amount to do with her foray into comedy. You can watch her on SindhuVComedy on Youtube. AVALON PINTO now lives and works in Dubai, and still divides his time between work in Dubai and his family, Linette and Savannah, in Goa. A five week on/off rotation works great and gives him enough quality time with the family. Time in Goa is usually spent being a dad 24x7 and this gives Linette the well-deserved rest she needs. RAVI NISCHAL and his family moved back to Goa and we spend time together, now and then, reminiscing about our good old school days. BANDANA SHRESTHA is currently working as the Regional Thematic Manager for Child Rights Governance for Middle East and Eurasia. She is currently based in Jordan with Save the Children International Office. Her daughter, Eriko, is studying at Woodstock in grade 11. BIRDIE MATERN We went to Vancouver on vacation this summer. And while on Vancouver Island, I got to have a little reunion with a very dear friend of long ago... JENNY HANKINS '86! We also got to visit with Paul and Lynn Hamilton who also live on Vancouver Island. ANTHEA MACMILLAN ELLIOTT - I work part-time as a social worker at a hospital on the fringes of Melbourne. We have a very multicultural clientele and I think my time at Woodstock has been extremely valu-

able in shaping a broad worldview that tries to understand the experiences of others. Asylum seekers, especially boat arrivals, are currently a hot topic in Australian politics. I have tried to be an advocate for the rights of asylum seekers in my workplace. To this end I was part of a small group that toured a local detention centre, very depressing, and organised a study day, which was fully booked out! When not working I spend time with my husband Leith and two children Caleb, 13 years and Freya, 9 years. We have had a number of fun road trips in the past 12 months to Sydney, Dubbo, and Adelaide to visit family and sightsee. Every summer we go away camping to the beach with a group of friends and swim, surf, bushwalk and last year looked at dinosaur fossils! To relax I crochet, read and make sour dough bread. MERRYNN GLOVERAPPLEBY'S novel "A House Called Askival" has found a publisher. Set in Mussoorie and spanning 70 years of India's recent history through one family, it will be available from Freight Books in June. Husband Alistair has started a PhD in Spirituality and Health, son Sam (14) plays his bagpipes at a local hotel and son Luke (12) has started high school with gusto. The family are just beginning the adventure of life with a dog, Golden Retriever "Sileas". We didn't have a reunion, but a bunch of people met up on their own. MOHANA RAO flew into Delhi for a shopping spree and met with SUMIT BASU and me for a laughter-filled Italian dinner. GURPREET THIND put his pants on and joined by Skype. The years melted away. Later in the year, ADIL CHOWDHURY came in with his family to explore the admission of his son at Woodstock (if that happens Zane will be the

first Olras kid in Woodstock!), and was blown away when he saw Gurpreet walking into lunch behind me. It truly was a reunion of rascals, and our families kept telling us to stop laughing and talking so loudly. The reunion of the year though, has to be that of VIVEK TANDON and RENU SINGH, who hadn't seen each other since 5th grade. The Olras jinx continues to haunt us, and we are saddened by the loss of yet another classmate. Rest in peace, REHAN HUSSAIN, we will miss you. ERIC NORD hit the nail on the head "Since hearing the news about Rehan, I've also been thinking that it seems more important than ever to get another reunion together." We may have missed the anniversary, but who says we can't have our 25th reunion in the 26th year? Let's talk. Cheers! —Andy

Any and all Woodstockers are welcome to stop by and visit the Bhattacharjees, they promise that they will take you to either the wine regions of the Barossa Valley or McLaren Vale and/ or head to the spectacular beaches of South Australia, where, amusingly enough, almost all the footage featuring actual great white sharks in Jaws was filmed!. JOASH is currently Chief of Pediatric services at Zeeland Hospital and continues to enjoy community practice and teaching at the Children's Hospital in Grand Rapids. BECCA works as a sedation nurse at the Children's hospital, with a part time schedule that allows her more time at home with their three children. Mumbai has been her home for close to ten years. She and the children go to Delhi over school holidays to visit her parents, her brother, SAMIR SHARMA '91, and his two children. They go to Europe on holiday, and when her husband is busy, she and the kids go to Goa over long weekends. Sharika's husband, Rahul Bhat, is an actor and television producer. Class of 2001

This year many in the Class of 2001 marked their 30th birthdays and with the transition to undeniable adulthood have settled into a steady pace of family life, work and/or further education. One way to mark your birthday is by swimming with the dolphins in Florida like SEEMA SHARAN SAWHNEY did. At other times Seema works as a domestic engineer in Atlanta, taking care of her pets: Smoky, Bandit, and Kiki. The cute but very aggressive sun conure bird named Addo, also features prominently for banking lawyer MONICA SINGH SANFORD who is with Haynes and Boone, LLP in Dallas, Texas. Several Intriguers have expanded their little families. MARIA CHACKO is in the Netherlands where she looks after 1 year old daughter, Sophia, while husband, Ramesh pursues his PhD. SAMUEL CHOI and wife are living in Chiang Mai, Thailand and working in the import/export business. They had a cute baby boy, Nikolas, on Feb 12, 2013. EKATERINA OSSENEVA is living in Moscow with her daughter, Anastasia. SRIYA KEJRIWAL JAIN had a baby girl called Anoushka whom SIMONI TODI MITTAL and TANUSHREE HAZARIKA AGARWAL are about to meet in Bangalore.
