

Jabarkhet
NATURE RESERVE

MUSSOORIE, UTTARAKHAND

Flag Hill Revisited

Sunday, 18 November 2018
08:00-11:00

Many Woodstock alumni would fondly remember walks up to Flag Hill. Over the last five years, a project initiated & implemented by Dr Sejal Worah, an ecologist passionate about the Himalayas and concerned about the state of Mussoorie's environment in collaboration with the owner of the area, has transformed the Hill. Now re-invented as the Jabarkhet Nature Reserve (JNR), it is serving as a model for how privately owned forests can play a role in the conservation of the flora and fauna of the Himalayas while providing a rich natural experience for visitors.

Join Sejal on a walk to explore the trails and rejuvenated forests (and wildlife) and learn more about the remarkable journey of JNR while taking in the extra-ordinary views and vistas of Flag Hill.

Contact alumni@woodstock.ac.in to sign up for the walk.
